Get the Recipe for Money-Saving Solutions!

Here's some food for thought: per square foot, restaurants use five to seven times the energy of other commercial facilities. You can make a huge impact on your facility's energy use and profitability with incentives available through New Jersey's Clean Energy Program, an easy and effective way to improve your bottom line. Incentives from the SmartStart Buildings Program are available for the following kitchen equipment:

Electric Cooking	
Combination electric oven/ steamer	$1,000/oven
Convection oven	$350/oven
Fryer	$200/vat
Large vat fryer	$200/vat
Griddle	$300/griddle
Steam cooker	$1,250/steamer

Holding	
Full-size insulated cabinets	$300/cabinet
Three-quarter-size insulated cabinets	$250/cabinet
Half-size insulated cabinets	$200/cabinet

Natural Gas Cooking	
Combination gas oven/steamer	$750/oven
Convection oven	$500/oven
Rack oven - single	$1,000
Rack oven - double	$2,000
Conveyor oven - small deck	$500/deck
Conveyor oven - large deck	$750/deck
Fryer	$749/vat
Large vat fryer	$500/vat
Griddle	$125 griddle
Steam cooker	$2,000/steamer

Cooling & Cleaning	
Glass door refrigerators	$75-$150/unit
Solid door refrigerators	$50-$200/unit
Glass door freezers	$200-$1,000/unit
Solid door freezers	$100-$600/unit
Ice machines	$50-$500/unit
Dishwashers	$400-$1,500/unit

Projects located in Urban Enterprise Zones or Opportunity Zones, in buildings owned or operated by a local government, K-12 public schools, or designated as affordable housing may be eligible for double the incentives up to program caps.

Program Application Process

Most equipment incentive applications will follow the process shown here.

1

Complete and submit the SmartStart Buildings incentive application, found at: **NJCleanEnergy.com/SSB**

Receive a confirmation email that your application has been received.

2

If your project meets all eligibility requirements, your application will be approved.

Receive your application approval letter, notification of successful pre-inspection, or a waiver of pre-inspection.

3

Submit proof of equipment purchase, installation labor, and your tax clearance certificate to the program.[1]

Receive your incentive!

[1]All projects are subject to a post-installation inspection to confirm equipment installation prior to incentive payment.

Incentive Spotlight

A supermarket in New Brunswick, NJ received over $800 in food service equipment incentives through the SmartStart Buildings Program. The incentive offset the cost of installing energy-efficient refrigerator doors and refrigeration controls in the facility.
