Quality, Comfort and Savings

Built In and Qualified

Quality, Comfort and Savings

New Jersey's Clean Energy Program and your premium builder are working together to make New Jersey ENERGY STAR Homes available throughout New Jersey. These homes are more energy efficient than the average new home built in New Jersey, and they outperform other new homes when it comes to quality, comfort and savings.

Built In and Qualified

New Jersey ENERGY STAR Homes qualification is your assurance that your new home meets the program's energy efficiency standards.

With New Jersey ENERGY STAR Homes, benefits are built right in — and built in right!

Energy Savings

- Lower monthly energy costs for the life of the home

Quality

- Better overall design with integrated improvements for maximum energy efficiency
- Better construction elements, which may include:
 - High efficiency heating, cooling and water heating systems
 - Added levels of insulation in walls, foundation and attic
 - ENERGY STAR qualified windows
 - Other high efficiency options
- Better for you and better for the environment

Comfort

- Increased indoor comfort year-round
- Improved air quality
- Quieter home

Built In and Qualified

Benefits of a New Jersey ENERGY STAR Home are assured through an energy analysis of the home design, inspection at key construction stages and performance testing upon completion to document that your new home meets program standards.

Be sure your new home is a New Jersey ENERGY STAR Home!

Any builder of residential new construction in New Jersey is eligible to participate in New Jersey ENERGY STAR Homes. Ask your builder about making your new home a qualified New Jersey ENERGY STAR Home, or check our website for more information.
