Discussion Points:

1. Anticipated second enrollment period of the Large Scale CHP-Fuel Cell (LSCHP-FC) Program.
2. Assessment of participant experience in the first enrollment period.
3. Identification of any non-participants and cause for not submitting application.
4. Discuss and identify areas of improvement in the program process based on first enrollment, including but not limited to:
 - a. Application submittal requirements
 - b. Timing of submittal requirements
 - c. Length of review time of application
5. Determine potential solutions to areas of improvement.

Background: The LSCHP-FC Program is funded by the New Jersey Board of Public Utilities (BPU), and jointly developed by the EDA and BPU, the program is designed to support the development, design, and construction of high efficiency Combined Heat and Power (CHP) and Fuel Cell (FC) projects in New Jersey. The LSCHP-FC Program (<http://www.njeda.com/lischp-fc>) offers project-based grants to New Jersey-based Government, (Federal, State, or Local), Commercial, Institutional or Industrial entities (including 501 c (3)) with a Combined Heat and Power (CHP) or Fuel Cell (FC) project with electric generating capacity of greater than one megawatt.
