

APPROVED TECHNOLOGIES FOR INCENTIVES

Electric Chillers

- Water-cooled chillers
- Air-cooled chillers

Gas Cooling

- Gas absorption chillers
- Regenerative desiccant units

Electric Unitary HVAC

- Unitary HVAC and split systems
- Air-to-air heat pumps
- Packaged terminal units
- Water source heat pumps
- Central DX AC systems
- Dual enthalpy economizer controls
- Occupancy controlled thermostats
- A/C Economizing Controls

Ground Source Heat Pumps

- Closed loop systems

Gas Heating

- Gas-fired boilers
- Gas furnaces
- Boiler Economizing Controls

Variable Frequency Drives

- Variable air volume
- Cooling tower fan systems
- Chilled water pump motors
- Rotary screw air compressors
- Boiler motor systems
- Commercial kitchen hoods

Gas Water Heating

- Water heaters
- Booster heaters
- Tankless heaters

Prescriptive Lighting

- T-5 and T-8 linear fluorescent
- Induction
- LED fixtures
- Pulse-start metal halide

Lighting Controls

- Occupancy sensors
- High-low fluorescent controls
- Daylight dimming

Refrigeration Doors/Covers

- Energy-efficient doors for open cases
- Aluminum night curtains for open cases

Refrigeration Controls

- Door heater
- Electric defrost
- Evaporator fan
- Novelty cooler shutoff

Food Service Equipment (NEW)

- Cooking
- Holding
- Cooling
- Cleaning

Other Equipment Incentives

- Performance lighting - 5% above ASHRAE 90.1-2007
- Custom electric and gas measures (evaluated on a case-by-case basis)

This is an overview of approved technologies. Some exclusions apply. Please speak with a program representative for specific details.

New Construction

NEW JERSEY'S CLEAN ENERGY PROGRAM

ENERGY-EFFICIENT BUILDINGS For the Environment and for the Bottom Line

As one of the key initiatives of *New Jersey's Clean Energy Program*, NJ SmartStart Buildings provides significant financial incentives for incorporating energy-efficient measures and equipment in new and existing commercial and industrial buildings. NJ SmartStart Buildings includes a number of valuable resources for business owners, facility managers, school board and municipal representatives, and the architect and engineering design community.

INCENTIVES FOR QUALIFYING Equipment and Projects

Significant financial incentives provide an opportunity to offset some—or maybe even all—of the added cost to purchase qualifying energy-efficient equipment, which provides valuable long-term energy savings. Ranges of incentives are available for qualifying equipment (depending on type, size and efficiency) in several categories.

HOW IT WORKS

1. Get your building benchmarked FREE.* (Optional)
2. Visit the website for the latest applications and incentive offerings.
3. Submit a completed application, receive approval and install your upgrades.
4. Coordinate with our trained technical staff for incentive processing.
5. Receive your incentive payment.

INCENTIVE RANGES

Electric Chillers	\$8 to \$170/ton
Natural Gas Cooling	\$185 to \$450/ton
Electric Unitary HVAC Systems	\$40 to \$92/ton
Occupancy Controlled Thermostats	\$75/each
Dual Enthalpy Economizers	\$250/unit
Ground Source Heat Pumps	\$450 to \$750/ton
Gas Heating (Furnace or Boiler)	\$300 minimum
Domestic Water Heating	\$50 minimum
Variable Frequency Drives, VAV Systems/Chilled Water Pumps	\$60 to \$155/HP
Commercial Kitchen Hoods	\$55 to \$300/HP
Prescriptive Lighting	\$10 to \$200/fixture
Performance Lighting	\$1/sq. ft. or up to \$30/fixture
Lighting Controls	\$20 to \$75/unit
Refrigeration Doors/Cover	\$100/door & \$3.50/lf
Refrigeration Controls	\$50 to \$75/unit
Food Service Equipment (NEW)	Up to \$2,000/unit

Applications include complete details on these and other incentives.

*FREE BENCHMARKING OFFERED TO THE FOLLOWING SECTORS:

- Hospital and Healthcare
- Commercial and Industrial
- Hospitality
- Multifamily
- Higher Education
- Municipalities and K-12 Schools
- Houses of Worship

APPLICATION PROCEDURES

All incentive application forms are available on *New Jersey's Clean Energy Program* website, including convenient e-forms that allow you to download, fill out electronically and save. A complete application includes:

- Dated and signed application
- Manufacturer's technical data sheet(s) based on the project's specified equipment manufacturer model number(s)
- Recent full copies of electric or natural gas utility bill(s) for the facility
- Dated and signed W-9 tax form, ST-4/ST-5 if you are exempt
- For custom projects, please refer to the Custom Electric/Gas application for more details on submission requirements
- Approval is required prior to installation, some exemptions apply—please refer to the program application(s) for further details

If your paperwork is in order, you will receive an approval letter authorizing you to begin the project. The letter will include the pre-determined time frame required to complete the installation and submit the final "as-built" documentation.

VISIT NJCleanEnergy.com/SSB TO LEARN MORE!

Our website has complete information on NJ SmartStart Buildings including a number of useful tools and resources. Learn about how New Jersey's residential, commercial and renewable programs can help you reduce energy and save money.

Rebuilding after Sandy? Rebuild Smarter!

Energy efficiency incentives have been increased by 50% and there are new incentives for food service equipment. Visit NJCleanEnergy.com/SANDY for details.
