an ENERGY STAR Qualified Clothes Washer**

New Jersey's Clean Energy Program is rewarding customers who purchase the most efficient ENERGY STAR qualified clothes washers with a mail-in rebate. This offer only applies to **select** ENERGY STAR qualified models as listed on NJCleanEnergy.com/clotheswashers.

For a limited time only, get \$75 back from *New Jersey's Clean Energy Program* on the purchase of eligible ENERGY STAR qualified clothes washers with a **Modified Energy Factor (MEF) of 2.2 or higher**. The MEF measures energy consumption of the total laundry cycle (washing and drying). It indicates how many cubic feet of laundry can be washed and dried with one kWh of electricity; the higher the number, the greater the efficiency.

**These washers use on average 43% less energy and
75% less water than a conventional model.**
