

With the help of schools and partner organizations across New Jersey, Green Market Fundraising is working to facilitate the donation of CFL bulbs to needy families and individuals. As part of our fundraising program, residents have the option to purchase a 4-pack of 13-watt CFL bulbs to be donated to those in most need. Caring customers have responded to this offer and to date, they have purchased over 1,100 CFL bulbs which will brighten the lives of those less fortunate.

This month's newsletter is dedicated to thanking everyone who has been so generous in the donation of these CFL light bulbs and to show how their contribution has made a difference in the lives of other New Jersey residents.
