2009 Solar Domestic Hot Water Heater Pilot

New Jersey's WARMAdvantage Program

C. Important Terms and Conditions

1. Participating contractors have to meet minimum training requirements, follow manufacturer installation guidelines and provide warranty service as specified by the program.
2. Contractors are required to either be certified by the North American Board of Certified Energy Practitioners (NABCEP) or have prior industry experience with SDHW installations and have completed either an Interstate Renewable Energy Council (IREC) accredited or manufacturer SDHW training.
3. The contractor must provide the customer with a signed, completed Solar Water Heating Self-Inspection System Checklist.
4. Contractors are required to comply with state and local plumbing, electrical and building codes and regulations and other requirements applicable under federal, state and local authority.
5. The system must be installed in accordance with the manufacturer requirements.
6. Responsibility for proper sizing of equipment, as well as delivery and workmanship related to any equipment or services the customer procures, rests exclusively with the contractor selected by the customer. *New Jersey's Clean Energy Program* provides no oversight or control over any contractor services related to this program.
7. Applicant must agree to an inspection by a NJCEP representative or designee.
8. *New Jersey's Clean Energy Program* audits its rebate programs as a protection against consumer and/or contractor fraud. Any attempt to defraud *New Jersey's Clean Energy Program* will result in automatic rejection of the rebate application and possible legal action.
9. *New Jersey's Clean Energy Program* reserves the right to remove any contractor or manufacturer from the approved list for activities or communications that New Jersey's Clean Energy Programs determines to not be in the best interests of the SDHW Program or of NJCEP.
10. Participants in the Energy Star® Homes Program and the Home Performance with Energy Star Program are not eligible to receive incentives under the Solar Domestic Hot Water Pilot Program in 2009.
11. It is the responsibility of the customer to assure that all requirements for the rebate are met and that all required documentation is provided.
12. Please allow up to 120 days from the date New Jersey's Clean Energy Program (NJCEP) receives **all required information** to process your rebate.
13. You are urged to seek appropriate consultation concerning any tax liabilities that could be associated with the receipt of the rebate.
14. The NJCEP reserves the right to modify or withdraw this program.
15. Please refer to the website www.njcleanenergy.com for updates under *New Jersey's Clean Energy WARMAdvantage* program
