FY19 Planning Process and CRA

Mike Ambrosio gave an update on the FY19 Plans and CRA

- Majority of discussions on the energy efficiency side
- Offshore wind limited funds for Board to hire consultant
- RE Storage Program-Not sure when this will reopen
- Plans will be given to staff in early March and will need to go out for public comment
- No changes to SREC Registration Program unless pending legislation includes changes

Milestone Reporting Forms

Scott Hunter and Tammy VanBlarcom gave an update and addressed the lack of quarterly Milestone submitted. See presentation.

Net Metering and Interconnection Issues

John Teague gave update.

- 6-7 complaints were submitted in the online Interconnection Complaint Form which included net metering issues, billing questions or lack of customer understanding due to sales representative misrepresented net metering process to the customer
- Additional Third-Party Complaints were submitted and forwarded to TRC to address

RPS Update

Ron Jackson gave update

- EY17 results released
- Information can be found at <http://www.njcleanenergy.com/renewable-energy/program-updates/rps-compliance-reports>
