

NEW JERSEY BOARD OF PUBLIC UTILITIES

DRAFT Agenda  
**I/M/O A GREENHOUSE GAS EMISSIONS PORTFOLIO STANDARD AND OTHER  
REGULATORY MECHANISMS TO MITIGATE LEAKAGE  
DOCKET NO. EO08030150**

**STAKEHOLDER MEETING**

Board Hearing Room  
2 Gateway Center, 8<sup>th</sup> Floor, Newark, NJ 0712  
**June 5, 2008**  
9:30 P.M. - 12:30 P.M.

**(1) INTRODUCTION (Sam Wolfe, BPU Chief Counsel)**

Review of issues and comments received following the April 30 stakeholder meeting on GHG leakage mitigation measures and key issues to be resolved. A brief overview of the experience of other RGGI states within PJM including Maryland and Delaware in implementing a GHG EPS, or other measures to mitigate leakage will also be provided.

**(2) ESTIMATED RGGI IMPACTS ON IMPORTS (Joe Carpenter, DEP)**

Brief overview of estimated RGGI impacts on imports of electricity into New Jersey from electric generating units located outside the RGGI region relative to statewide ghg emissions and costs differentials.

See RGGI Report Modeling Projections – [http://www.rggi.org/docs/il\\_report\\_final\\_3\\_14\\_07.pdf](http://www.rggi.org/docs/il_report_final_3_14_07.pdf)

**(3) EMISSIONS TRACKING and MONITORING (Ken Schuyler, PJM Interconnection, LLC)**

Review of GATS Tracking of Electricity imports and exports and data transparency.

See RGGI Recommendations [http://www.rggi.org/docs/il\\_report\\_final\\_3\\_14\\_07.pdf](http://www.rggi.org/docs/il_report_final_3_14_07.pdf)

**(4) ENVIRONMENTAL DISCLOSURE RULES (Ron Jackson, BPU)**

Review of New Jersey's Environmental Information Disclosure Rules on fuel source and related emissions. <http://www.nj.gov/bpu/pdf/rules/20071018energychapters4and8.pdf>

**(5) FOLLOW UP ON INTERSTATE COMMERCE CLAUSE (Sam Wolfe, BPU)**

Follow up discussion on how regulations to implement specific measures can best be designed in a way that does not conflict with the Interstate Commerce Clause of the United States Constitution.

**(6) FOLLOW UP DISCUSSION ON GHG LEAKAGE MITIGATION PROPOSALS**

Follow up discussion on the proposed GHG leakage mitigation measures and best approach for New Jersey relative to effectiveness in mitigating leakage; costs involved in developing and implementing the measure; and the impacts on the retail price of electricity in New Jersey:

- a. RAP Emissions Performance Standards
- b. PSEG Carbon Abated Proposal
- c. Other proposals
