Prescriptive Lighting Incentive
<p>\$ _____ Total Incentive (per attached worksheet calculations)</p> <p>Note: Prescriptive Lighting Worksheet must accompany this application.</p>

Hurricane Sandy enhanced incentives are not available for Prescriptive Lighting

Specific Program Requirements* (these requirements are in addition to the Program Terms and Conditions.)

1. Please refer to the program guide for additional applicable technical requirements.
2. The prescriptive lighting incentive is a 1:1 replacement program.
3. Include the manufacturer's specification sheet with the application package and mail or fax directly to the Commercial/Industrial Program Manager.
4. Incentives for T-5 and T-8 lamps with electronic ballasts are available only for fixtures with a Total Harmonic Distortion of $\leq 20\%$.
5. Incentives for retrofits/replacement of existing fixtures <250W to T-8 lighting requires high performance or reduced wattage lamps (4' only) and ballasts qualified by most current CEE qualified product list.
<http://library.cee1.org/content/commercial-lighting-qualifying-products-lists>
 - Incentives for delamped T-8 lamps with new reflectors are available only for fixtures with a total Harmonic Distortion of <20%. Electronic ballast replacement required for all eligible de-lamped fixtures. Eligible de-lamping can include reduction in linear lamp feet from existing conditions. For example, 1-8' linear fluorescent lamp can be considered as 2-4' linear lamps. U-bend lamps 4' in total length can be considered as 2-F17/T8 lamps.
 - Electronic ballast replacement is necessary for all eligible de-lamped fixtures.
 - New T8 fixture (with reduced wattage lamps 28w/25w 4') (1-4 lamps) new electronic ballast required.
 - Reduced wattage T8 (28W/25W 4') (1-4 lamps) retrofit requires lamp and ballast replacement.
6. For all eligible lighting devices, fixture or lamp must be listed by UL or other OSHA approved Nationally Recognized Testing Laboratory (NRTL) in accordance with applicable US standards.
7. T-5 or T-8 Fixtures replacing an HID fixture of 250 watts or greater shall comply as follows:
 - T-5 fixtures replacing an HID fixture of 250 watts or greater shall have a ballast factor greater than or equal to 1.0; have reflectivity greater than or equal to 91%; have a minimum 2 lamps; and be designated as F54T5 HO.
 - T-8 fixtures replacing an HID fixture of 250 watts or greater shall have a ballast factor greater than or equal to 1.14; have reflectivity greater than or equal to 91%; have a minimum of 4 lamps; and be designated as F32T8, minimum 32 watts.
8. Incentive requirements for LED fixtures and lamps (excluding LED Exit Signs)
 - LED fixture or lamp must be listed on most current ENERGY STAR® or Design Lights Consortium (DLC) Product Lists and be designated as per the description noted on the qualifying LED list. To qualify, the model number of the LED must be an exact match to the qualified product list.
 - The approved category for the LED must match its application (for example, outdoor wall mounted fixtures proposed for interior use will not qualify)
 - Incentives for LED screw-in/plug-in (Integral Lamps) only available for incandescent and halogen replacement. CFL or HID to LED will not be eligible.
 - Incentives will not be provided for the installation of screw-in/plug-in lighting measures in non-permanent and non-/hard-wired fixtures (Example - refrigerator, oven, floor/desk lamps, etc).
 - Watts of new fixture (LED only) each line in the scope of work must have wattage reduction to qualify for an incentive.
 - LEDs categories not listed by most current ENERGY STAR®(1)(2) or DLC(3) qualified products will not be evaluated through Custom for incentive eligibility.
 - (1) http://www.energystar.gov/index.cfm?c=ssl.pr_commercial
 - (2) http://www.energystar.gov/index.cfm?fuseaction=find_a_product.showProductGroup&pgw_code=LB
 - (3) <http://www.designlights.org/>

Application Checklist (before submitting your application, please make sure you have signed in the space below and completed the following items.)

- Payee Information is filled out and a signed W-9 form of the payee is included
- Manufacturer's specification sheets for proposed technology are included
- A copy (all pages) of a recent bill from a NJ utility (as defined in Terms and Conditions)
- Check the box if an Energy Savings Improvement Program (ESIP) will be a source of funding. ESIP allows government agencies to pay for energy related improvements using the value of the resulting energy savings.
- Copies of current applicable qualified products list (CEE, ENERGY STAR, DLC) included with application

ACKNOWLEDGEMENT

(Please print and sign customer name.)

CUSTOMER'S SIGNATURE

By signing, I certify that I have read, understand and agree to the Specific Program Requirements/Terms and Conditions listed on this application form. I will also submit for approval a properly completed application package, which includes this signed application, worksheet (if applicable), manufacturer's specification sheets and complete utility bill (name and address on utility bill must match name and address on application).

Mail or fax your application package DIRECTLY to the Commercial/Industrial Program Manager.

Hurricane Sandy enhanced incentives are not available for Prescriptive Lighting

Prescriptive Lighting Measures and Incentives

NEW FIXTURE INCENTIVES

Type of Fixture		Incentive	
Linear Fluorescent			
Type of Old Fixture	Wattage of Old Fixture	Type of New Fixture	Incentive Per Fixture Replaced
HID	≥ 1000 Watts	T-5, T-8	\$200
HID	400-999 Watt	T-5, T-8	\$100
HID	250-399 Watt	T-5, T-8	\$50
HID	175-249 Watt	T-5, T-8	\$43
HID	100-174 Watt	T-5, T-8	\$30
HID	75-99 Watt	T-5, T-8	\$16

Induction Lighting

Replacement of HID	\$70 per HID (≥100w) fixture replaced with a new induction fixture. Replacement unit must use 30% less wattage per fixture than existing HID system.
--------------------	--

LED Lighting Category (as listed on the DLC/Energy Star qualified product list)

LED Display Case Lighting	\$30 per display case
LED Shelf-Mounted Display and Task Lights	\$15 per linear foot
LED Portable Desk Lamps	\$20 per fixture
LED Wall-Wash Lights	\$30 per fixture
LED Recessed Down light	\$35 per fixture
LED Architectural Flood and Spot Luminaires	\$50 per fixture
LED Outdoor Pole/Arm-Mounted Area and Roadway Luminaires	\$175 per fixture
LED Outdoor Pole/Arm-Mounted Decorative Luminaires	\$175 per fixture
LED Outdoor Wall-Mounted Area Luminaires	\$100 per fixture
LED Parking Garage Luminaires	\$100 per fixture
LED Track or Mono-Point Directional Lighting Fixtures	\$30 per fixture
LED High-Bay and Low-Bay Fixtures for Commercial & Industrial Buildings	\$150 per fixture
LED High-Bay-Aisle Lighting	\$150 per fixture
LED Linear Ambient Luminaires (Indirect, Indirect/Direct, Direct/Indirect, Direct)	2' fixtures - \$20/fixture 3' fixtures - \$30/fixture 4' fixtures - \$45/fixture 6' fixtures - \$60/fixture 8' fixtures - \$75/fixture
LED Stairwell and Passageway Luminaires	\$40 per fixture
LED Bollard Fixtures	\$50 per fixture
Luminaires for Ambient Lighting of Interior Commercial Spaces (1x4, 2x2, 2x4)	\$50 per fixture
LED Fuel Pump Canopy	\$100 per fixture
LED Screw-based & Pin-based (PAR, MR, BR, R) Standards (A-Style) and Decorative (globe, candelabra, etc.) Lamps * See Specific Program Requirements bullet #8 for requirements/restrictions.	\$10/lamp - LED R/BR/PAR 50, R/BR/PAR 58-40, A-Lamp \$5/lamp R/PAR20, MR/PAR16, Globe, Candelabra and other miscellaneous types
LED Refrigerated/Freezer Case Lighting: Incentive for replacement of fluorescent lighting systems in medium or low temperature display cases	\$30 per 4' fixture \$42 per 5' fixture \$65 per 6' fixture
LED Retrofit Kits & LED fixtures that are listed on the DLC qualified product list but are not listed as a category above	To be evaluated through the custom measures path

RETROFIT INCENTIVES

Linear Fluorescent Lighting

For retrofit or replacement of T-8 fixtures by permanent delamping & new reflectors. Electronic ballast replacement required for all eligible delamped fixtures.	\$15 per fixture
Retrofit or replacement of existing 32 watt T-8 system to reduced wattage (28w/25w 4')	\$10 per fixture (1-4 lamps)

Induction Lighting

\$50 per HID (≥100w) fixture retrofitted with induction lamp	\$50 per HID (≥100w) fixture retrofitted with induction lamp, power coupler and generator. Replacement unit must use 30% less wattage per fixture than existing HID system.
--	---

New Construction - Performance based only

Program Terms and Conditions

Definitions:

Energy-Efficient Measures – Any device eligible to receive a Program Incentive payment through the NJ Clean Energy Commercial and Industrial Program (New Jersey SmartStart Buildings).

New Jersey Utilities – The regulated electric and/or gas utilities in the State of New Jersey. They are: Atlantic City Electric, Jersey Central Power & Light, Rockland Electric Company, New Jersey Natural Gas, Elizabethtown Gas, PSE&G, and South Jersey Gas.

Administrator – New Jersey Board of Public Utilities, Office of Clean Energy

Participating Customers – Those non-residential electric and/or gas service customers of the New Jersey Utilities who participate in this Program.

Product Installation or Equipment Installation – Installation of the Energy-Efficient Measures.

Prevailing Wage – Projects with a contract threshold of \$15,444 are required to pay no less than prevailing wage rate to workers employed in the performance of any construction undertaken in connection with Board of Public Utilities financial assistance, or undertaken to fulfill any condition of receiving Board of Public Utilities financial assistance, including the performance of any contract to construct, renovate or otherwise prepare a facility, the operations of which are necessary for the receipt of Board of Public Utilities financial assistance. By submitting an application, or accepting program incentives, applicant agrees to adhere to New Jersey Prevailing Wage requirements, as applicable.

Program – The Commercial and Industrial Energy-Efficient Construction Program (New Jersey SmartStart Buildings) offered herein by the New Jersey Board of Public Utilities, Office of Clean Energy pursuant to state regulatory approval under the New Jersey Electric Discount and Energy Competition Act, NJSA 48:3-49, et seq.

Program Incentives – Refers to the amount or level of incentive that the Program provides to Participating Customers pursuant to the Program offered herein (see description under “Incentive Amount” heading).

Program Offer – Program Incentives are available to non-residential retail electric and/or gas service customers of the New Jersey Utilities identified above.

Program Manager – TRC Energy Services.

Application and Eligibility Process – The Program pays incentives after the installation of qualified energy-efficient measures that were pre-approved (for exceptions to this condition, please refer to “Exceptions for Approval”). In order to be eligible for Program Incentives, a Customer, or an agent (contractor/vendor) authorized by a Customer, must submit a properly completed application package. The package must include an application signed by the customer; a complete (current) utility bill; and technology worksheet and manufacturer’s cut sheets (where appropriate). This information must be submitted to the Program Manager before equipment is installed. Projects for the same utility account that are being done at the same time must be submitted on one application. Approval is required prior to removal of existing equipment and installation of new, energy efficient equipment. Applications for measures that are self installed by customers must be submitted by the customer and not the sales vendor of the measure, however, the customer may elect to assign payment of the incentive to the sales vendor. This application package must be received by the Program Manager on or before June 30, 2015 in order to be eligible for the fiscal year program (July 1, 2014 - June 30, 2015) incentives.

The Program Manager will review the application package to determine if the project is eligible for a Program Incentive. If eligible, the Customer will receive an approval letter with the estimated authorized incentive amount and the date by which the equipment must be installed in order for the approval to remain in effect. Upon receipt of an approval letter, the Customer may then proceed to install the equipment listed on the approved application. Equipment installed prior to the date of the Program Manager’s approval letter is not eligible for an incentive. The Program Manager reserves the right to conduct a pre-inspection of the facility prior to the installation of equipment. This will be done prior to the issuance of the approval letter. All equipment must be purchased within 12 months of date of application. **Any Customer and/or agent who purchases equipment prior to the receipt of an incentive approval letter does so at his/her own risk.**

Exceptions for Approval – The Application and Eligibility Process pertains to all projects except for emergency situations involving either Gas Heating, Gas Water Heating, Unitary HVAC, or Refrigerated/Freezer Fractional HP ECM Motors having an incentive amount less than \$5,000 that were installed within 12 months of receipt of the application. These measures, at this incentive level, may be installed without prior approval in emergency situations ONLY. In addition, but at the sole discretion of the Program Manager, emergency replacement of equipment may not require a prior approval determination and letter. **In such cases, please notify the Program Manager of such emergencies as early as possible, that an application will soon be sent in that was not pre-approved.** All non-emergency situations must abide by the program requirement and received pre-approval prior to installation regardless of incentive amount.

Post-Installation Approval – After installation is completed, the Customer, or an agent authorized by the Customer, must finalize and submit an invoice for the purchase of the equipment (material cost must be broken out from labor costs), and any other required documentation as specified on the equipment application or in the Program Manager’s initial approval letter. All self-installations must be in writing and signed by the customer. Start and completion dates must be on install documents.

Hurricane Sandy enhanced incentives are not available for Prescriptive Lighting

Please refer to the program guide on the NJCleanEnergy.com/ssb website for the complete Application and Eligibility Process.

The Program Manager reserves the right to verify sales transactions and to have reasonable access to Participating Customer's facility to inspect both pre-existing product or equipment (if applicable) and the Energy-Efficient Measures installed under this Program, prior to issuing incentives or at a later time.

Energy-Efficient Measures must be installed in buildings located within a New Jersey Utilities' service territory and designated on the Participating Customer's incentive application. Program Incentives are available for qualified Energy-Efficient Measures as listed and described in the Program materials and incentive applications. The Participating Customer must ultimately own the equipment, through an up-front purchase. Design Incentives are available to design professionals as described in the Program materials and applications. A different and separate agreement must be executed by participating design professionals to be eligible for this type of incentive. The design professional does not need to be based in New Jersey.

Equipment procured by Participating Customers through another program offered by New Jersey's Clean Energy Program or the New Jersey Utilities, as applicable, is not eligible for incentives through this program. Customers who have not contributed to the Societal Benefits Charge of the applicable New Jersey Utility are not be eligible for incentives offered through this program.

Incentive Amount – Program Incentives will not exceed: a) the approved Program Incentive amount, or b) total project cost of the Energy-Efficient Measure, whichever is less, as determined by the Program Manager. Products offered at no direct cost to the customer are ineligible. Incomplete application submissions, applications requiring inspections and unanticipated high volume of activities may cause processing delays. Program Incentives are limited to \$500,000 per utility account in a calendar year. Contact the Program Manager regarding any questions.

Tax Liability – The Program Manager will not be responsible for any tax liability that may be imposed on any Participating Customer as a result of the payment of Program Incentives. All Participating Customers must supply their federal tax identification number or social security number to the Program Manager on the application form in order to receive a Program Incentive. In addition, Participating Customers must also provide a Tax Clearance Form (entitled "Business Assistance or Incentive Clearance Certificate") that is dated within 180 days of equipment installation.

Endorsement – The Program Manager and Administrator do not endorse, support or recommend any particular manufacturer, product or system design in promoting this Program.

Warranties – THE PROGRAM MANAGER AND ADMINISTRATOR DO NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, AND/OR SERVICES RENDERED AS PART OF THIS PROGRAM, EITHER EXPRESSLY OR IMPLICITLY. NO WARRANTIES OR REPRESENTATIONS OF ANY KIND, WHETHER STATUTORY, EXPRESSED, OR IMPLIED, INCLUDING, WITHOUT LIMITATIONS, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING EQUIPMENT OR SERVICES PROVIDED BY A MANUFACTURER OR VENDOR. CONTACT YOUR VENDOR/SERVICES PROVIDER FOR DETAILS REGARDING PERFORMANCE AND WARRANTIES.

Limitation of Liability – By virtue of participating in this Program, Participating Customers agree to waive any and all claims or damages against the Program Manager or the Administrator, except the receipt of the Program Incentive. Participating Customers agree that the Program Manager's and Administrator's liability, in connection with this Program, is limited to paying the Program Incentive specified. Under no circumstances shall the Program Manager, its representatives, or subcontractors, or the Administrator, be liable for any lost profits, special, punitive, consequential or incidental damages or for any other damages or claims connected with or resulting from participation in this Program. Further, any liability attributed to the Program Manager under this Program shall be individual, and not joint and/or several.

Assignment – The Participating Customer may assign Program Incentive payments to a specified vendor.

Participating Customer's Certification – Participating Customer certifies that he/she purchased and installed the equipment listed in their application at their defined New Jersey location. Participating Customer agrees that all information is true and that he/she has conformed to all of the Program and equipment requirements listed in the application.

Termination – The New Jersey Board of Public Utilities reserves the right to extend, modify (this includes modification of Program Incentive levels) or terminate this Program without prior or further notice.

Acknowledgement – I have read, understood and am in compliance with all rules and regulations concerning this incentive program. I certify that all information provided is correct to the best of my knowledge, and I give the Program Manager permission to share my records with the New Jersey Board of Public Utilities, and contractors it selects to manage, coordinate or evaluate the NJ SmartStart Buildings Program. Additionally, I allow reasonable access to my property to inspect the installation and performance of the technologies and installations that are eligible for incentives under the guidelines of New Jersey's Clean Energy Program.
