By executing this Installation Agreement, the Participant agrees to install all of the measures in the Energy Reduction Plan, which are estimated to result in meeting or exceeding the minimum 15% performance target. The Participant agrees to the performance-based incentives (Incentives #2 & #3) as indicated in the document which are based on the project's benchmarking results. Implementation of the measures must commence in the time period twelve months following the approval date of Incentive #1. Failure to complete the installation of the measures in the Energy Reduction Plan will result in the repayment of Incentive #1.

By signing below and submitting this agreement, the Participant and Pay for Performance Partner agree to the terms of this Installation Agreement.
