

P4P + ICP

The Investor Confidence Project (ICP) is now a part of New Jersey's Clean Energy Program's™ Pay for Performance (P4P), and you could receive additional incentives by using it. ICP builds trust in projected energy and cost savings for energy efficiency projects. ICP provides a set of standardized protocols that define industry best practices for energy efficiency project development and a credentialing system that provides third-party validation. See how it can work for your project.

**ADDITIONAL
INCENTIVES
WORTH UP TO:**

\$45,000

Here's how it works

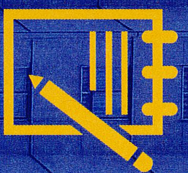

With P4P + ICP your Energy Reduction Plan can receive an additional:

\$25,000 *

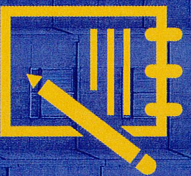

Submit a benchmarking report 2 years post-construction for an additional:

\$10,000

Submit another benchmarking report 3 years post-construction for an additional:

\$10,000

*ICP Pilot adds an additional 5 cents per square foot up to an additional \$25,000
