

Renewable Energy Incentive Program (REIP) Ten-Year Certification Addendum to Contract

The *Renewable Energy Incentive Program* (REIP) provides New Jersey ratepayers with incentives that cover a portion of the cost of a renewable energy system. To ensure that the anticipated benefits generated by these systems are realized by the citizens of New Jersey, the New Jersey Board of Public Utilities (NJBP) has directed the Office of Clean Energy to modify REIP procedures. As a condition of incentive commitment approval, **every customer applicant** must provide written certification for inclusion in their REIP application package that the customer agrees that if he or she sells or otherwise transfers the equipment for which incentives were paid to any party for use outside of New Jersey, the customer will refund a pro-rata share of the incentive received. This obligation will last for 10 years, beginning on the date of receipt of the REIP incentive. The customer applicant and vendor must also submit the attached amendment to the contract for equipment installation on file with the REIP program signed by both parties acknowledging the customer's awareness of this obligation as a condition of the incentive.

I, _____, hereby agree that if I sell or otherwise transfer the renewable energy equipment for which I received a incentive from the Renewable Energy Incentive Program to any party for use outside the State of New Jersey within 10 years of receipt of the incentive, I will refund to *New Jersey's Clean Energy Program*TM (NJCEP) REIP program a portion of the incentive in an amount equal to:

Incentive Amount Received minus Incentive Amount Received divided by 10 multiplied by the number of years the renewable energy system for which the incentive was provided operated in the state of NJ, (for example, for a 10 kW renewable residential energy system that received incentives at \$1.75 per watt leaves the state after 9 years, the pro rata share obligated for return to the NJCEP is; $\$1,750 = \$17,500 - (\$17,500 / 10 \text{ years}) \times 9 \text{ years}$)

I understand that I may remove the equipment from the installation for which a REIP incentive was provided and move or resell the equipment without any subsequent *New Jersey's Clean Energy Program* incentive within the State of New Jersey and that as condition of sale should include a provision of this requirement until the 10 year period has expired.
