New Jersey's Clean Energy Program™

Energy Efficiency Program Survey

February 13, 2015

2014 Energy Efficiency Program Survey

Background

Honeywell conducted a study of consumer awareness and opinions concerning the New Jersey Clean Energy Program (NJCEP). The study was designed to determine if New Jersey homeowners were aware of NJCEP and the various programs and rebates NJCEP offers. Other areas of interest included an assessment of attitudes towards energy efficiency in general, the main benefits associated with energy efficiency, key drivers associated with purchasing energy efficient products, the best methods for making consumers aware of NJCEP and its programs, and obstacles to implementing energy efficiency measures in the home.

Survey Approach

Potential respondents were randomly sampled from Infogroup's consumer database using homeownership as a key selection variable. Sampled individuals were contacted by phone (cellular or landline) using Infogroup teleresearch personnel. The survey consisted of 32 questions (some with multiple parts) and took approximately 10 minutes to complete.

The survey plan was to collect 500 responses which would yield a ±4.4 percent margin of error at a 95 percent confidence level. To encourage response, a chance of winning one of ten \$100 gift cards was offered at the time of the call.

Data Collection

Phone interviews were conducted during the week of November 10 to 14. Up to three attempts were made to contact each individual in the sample. In total, 527 respondents completed the phone survey for a response rate of 52.6%. The key findings and results of this study are discussed in detail in this report.

Executive Summary

Awareness of NJCEP is mixed

Respondents were almost evenly split about awareness of the New Jersey Clean Energy Program. 46.3% stated that they were aware of NJCEP, 46.7% stated they were not, and 6.1% did not know or did not respond. However, of those that were aware of the program, only 41% understood that NJCEP was administered by the State of New Jersey.

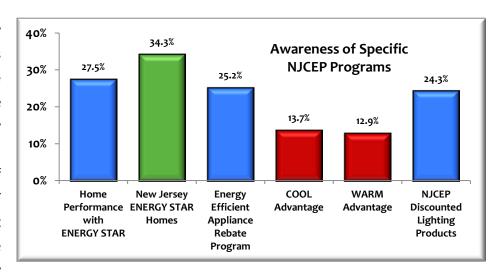

Awareness of NJCEP vs Seeking information about energy efficient products		Have you sought information about energy efficient products in the past year?							
		Yes	No	Don't Know	NR	Total			
		%	%	%	%	%			
	Yes	23.9%	19.2%	0.0%	3.2%	46.3%			
Have you	No	14.8%	26.4%	1.1%	5.3%	47.6%			
•	Don't Know	1.9%	2.7%	0.6%	0.8%	5.9%			
the NJCEP?	NR	0.0%	0.2%	0.0%	0.0%	0.2%			
NJOLF !	TOTAL	40.6%	48.4%	1.7%	9.3%	100.0%			

Seeking energy efficient products may tend to help drive awareness of NJCEP. Of the 46.3% of respondents who were aware of NJCEP, over half (51.6%) had sought information about energy efficient products in the past year.

Of the 47.6% who were not aware of NJCEP, only about a third (31%) had sought

information about energy efficient products in the past year.

The specific programs offered by NJCEP are not as well known as NJCEP itself, as shown in the figure below. About a third (34.3%) of the respondents were aware of New Jersey ENERGY STAR Homes and roughly a quarter were aware of Home Perfromance with ENERGY STAR, the Energy Efficient Appliance Rebate Program, and the fact that NJCEP discounts many lighting products.

Far fewer were aware of the COOLAdvantage (13.7%) and the WARMAdvantage (12.9%) programs.

Respondents believe it is important to become more energy efficient

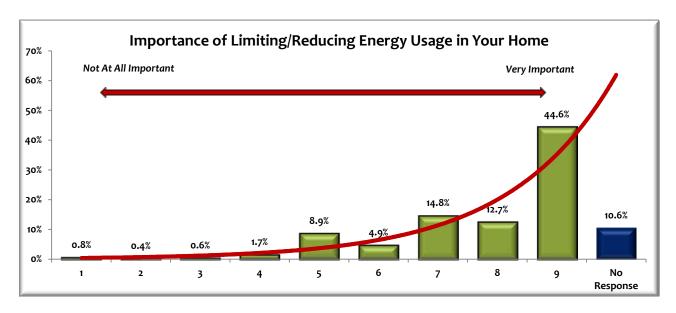

Regardless of actual awareness, 60.3% of all respondents would at least consider participating in an NJCEP program.

Moreover, those who are already participating are much more willing to consider participating in other NJCEP programs (79.5%) than those who are not (60%) – attesting to the value of the various NJCEP programs.

That participa	nts	are	at lea	st willing
to consider a	NJO	CEP	progra	m is not
surprising.	Ву	а	wide	margin,

program?	TOTAL	527	100.0%	60.3%	26.4%	13.3%			

respondents believe it is important to limit or reduce energy usage in the home as shown in the chart below. When asked to rate the importance of limiting or reducing energy use in the home, 86% stated it was at least somewhat important. More specifically, 44.6% stated that limiting and reducing energy use was very important. Very few (less than 4%) did not think it was important to reduce energy use.

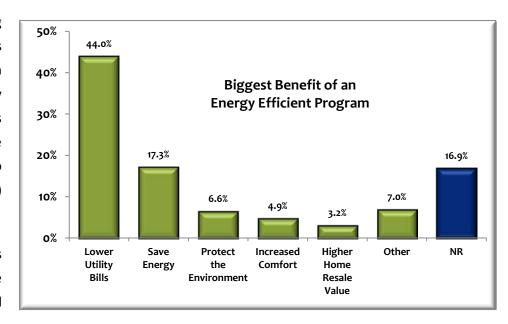

In

practice, 80.3% of respondents actively take measures to reduce their energy use. Turning off the lights (62.2%), adjusting the thermostat (44.4%), using energy efficient lights (33.8%), and turning off the TV (24.1%) were the most common measures taken to reduce energy usage.

Saving money is the biggest benefit of energy efficiency improvements

Although limiting and/or reducing energy use in the home is important, the biggest benefit from doing so seems to be lower utility bills. 44% of participants responded this way, almost three times more than those who indicated "saving energy" (17.3%) was the biggest benefit.

Only a relatively few respondents thought that protecting the environment (6.6%), increased comfort (4.9%), and higher home

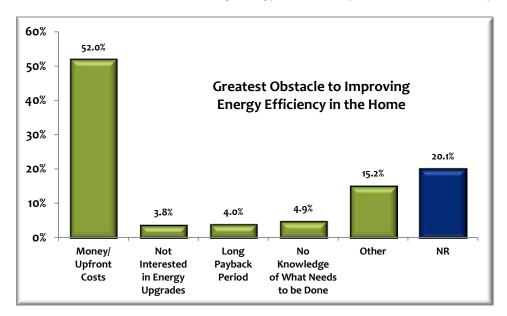

resale value (3.2%) were the biggest benefit of energy efficiency.

It is likely not a surprise that the greatest obstacle for homeowners in making energy efficiency improvements is money and upfront costs (52%). All other stated reasons for not making energy efficient improvements trailed very

far behind the issue of having enough money to pay for such improvements.

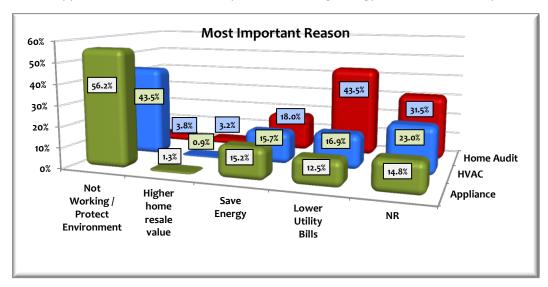

Long payback period (4%), no knowledge of what needs to be done (4.9%), and not being interested in energy efficiency upgrades (3.8%) appear to play little or no role in terms of improving energy efficiency in the home.

Respondents generally replace appliances and HVAC systems only when they have to

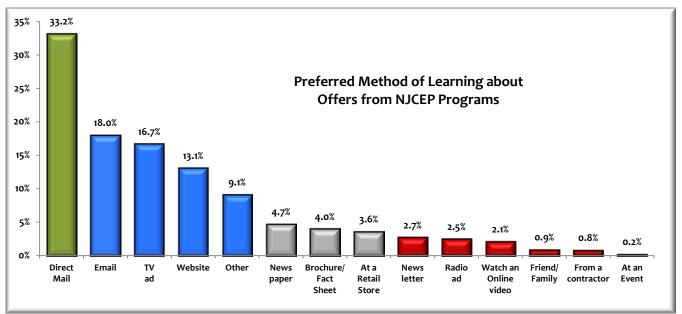

When asked for the most important reason for replacing an appliance or HVAC system, the most common reply was that it "was not working" (56.2% for appliances, 43.5% for HVAC systems). "Saving energy" was mentioned by about

15% of respondents in both cases. 12.5% stated they would replace an appliance because would result in lower utility bills while 16.9% stated the same for HVAC systems. On the other hand, 43.5% stated that lower utility bills would be main reason conducting a home energy audit.

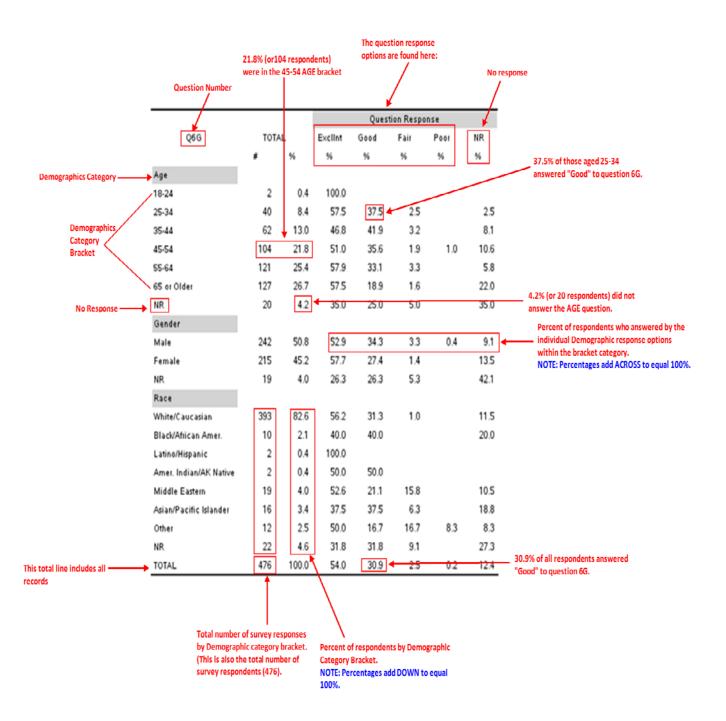

Direct Mail gets their attention

In terms of providing consumers information about NJCEP and its programs, direct mail is mentioned most often. One-third (33.2%) of respondents indicated that marketing materials and other information about NJCEP should be sent via mail. 18% indicated email was best, 16.7% thought television advertisements were useful, and 13.1% thought the website would be helpful.

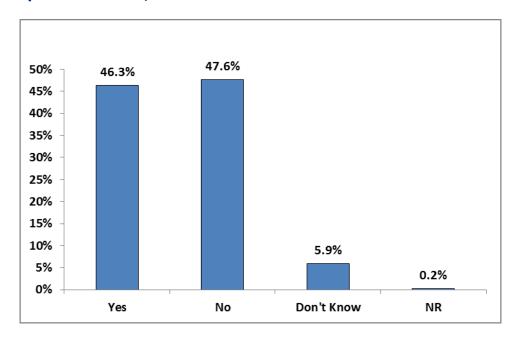

Survey Results

How to Read and Understand the Crosstab Tables in this Report:

Question 1: Have you heard of the NJCEP?

Survey respondents were about evenly split in terms of knowing about the New Jersey Clean Energy Program - 46.3% knew about the program, 47.6% did not, and 6.1% did not know or did not respond.

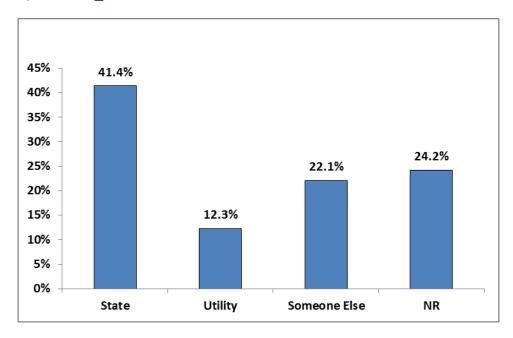

On an age basis, over half of those aged 51 or older (56%) knew about NJCEP. About 46% of those between 26 and 50 knew of the program while only 22% of those between 18 and 25 knew of it.

Homeowners (51.5%) were also somewhat more aware of NJCEP than those who rent (34.7%).

Question 1_2: Does the state, your utility, or someone else administer the program?

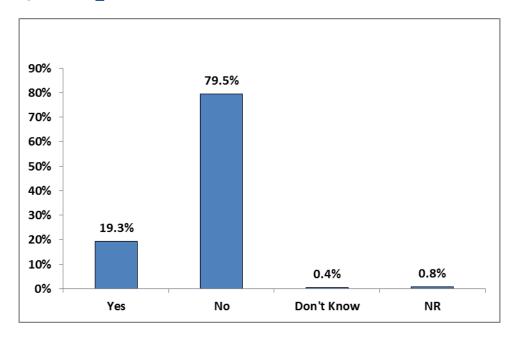

Of those who stated that they knew about NJCEP, 41.4% knew that the state administered the program. About one quarter (24.2%) did not know while 12.3% thought a utility administered NJCEP. 22.1% thought it was administered by someone else.

Question 1_3: Have you ever visited the NJCEP website (www.njcleanenergy.com) to get more information?

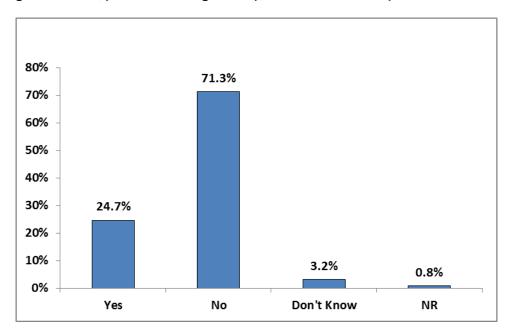

The vast majority of those who know about NJCEP (79.5%) have never visited the New Jersey Clean Energy website.

Those between 26 and 35 years of age (35.1%) are almost twice as likely to have visited the NJCEP website as other respondents. Households with more than two individuals (26%) are also somewhat more likely to have visited the website.

Question 2: Have you ever participated in an energy efficiency program offered by federal or state governments, your electric or gas utility, or some other entity?

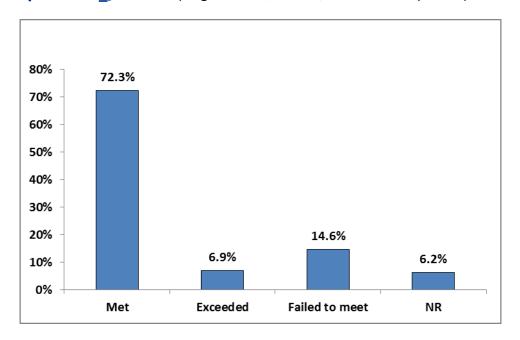

Most respondents (71.3%) indicated that they have never participated in any type of energy efficient program in the past, regardless of whether it was offered by the federal or state governments, and electric or gas utility, or some other entity.

The 24.7% of respondents who indicated that they have previously participated in an energy efficient program include some individuals who have also participated in NJCEP. Over half of these NJCEP participants (55%) indicated that they also participated in a previous energy efficient program, significantly higher than other respondents. This suggests that a previous experience with an energy efficient program helps drive participation in NJCEP.

Question 2 3: Did this program meet, exceed, or fail to meet your expectations?

Most of those who participated in a previous energy efficient program (79.2%) felt that these programs met or exceeded their expectations.

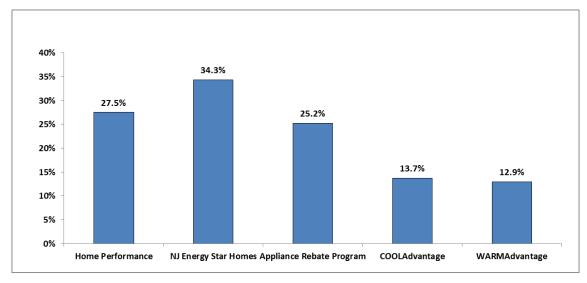

Some of the reasons why an energy efficient program failed to meet respondent needs include:

- Asked for questions and responses but they didn't respond back to her
- Cost more money than they said
- Didn't see a cost savings
- It cost double the money
- Expensive and not sure if it did anything, kept raising rate and I'm on a fixed income
- Just wasn't happy with the program
- Scam
- Unrealistic rules and bureaucracy

Although 46.3% of survey respondents were aware of the New Jersey Clean Energy Program, awareness of specific programs under NJCEP was somewhat lower. This is to be expected since most people will have familiarity with only a few of the programs offered.

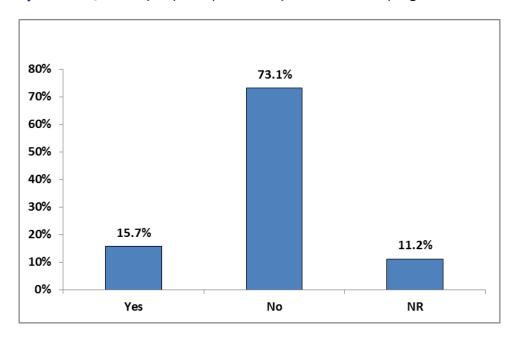

Awareness of New Jersey ENERGY STAR Homes was highest at 34.3%. Roughly a fourth was aware of Home Performance with ENERGY STAR (27.5%) and the Energy Efficient Appliance Rebate program (25.2%).

However, only 13.7% were aware of the COOLAdvantage program and only 12.9% were aware of the WARMAdvantage program.

Question 4: Have you participated in any of these NJCEP programs?

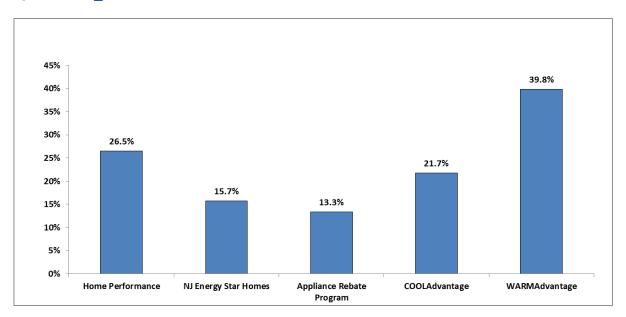

15.7% of all respondents (or 34% of those who are aware of NJCEP) have participated (or are participating) in at least one NJCEP program.

26.2% of those with higher annual incomes (\$100,000 or more) participate in NJCEP, but only about 6% of those with annual incomes less than \$50,000 participate. Since money and upfront costs are considered to be the biggest obstacle to implementing energy efficient measures in the home (see Question 20) these results are not surprising.

Question 4_2: Which programs have you participated in?

Although the COOLAdvantage and WARMAdvantage programs were the least recognized of all NJCEP programs, when it comes to participating in NJCEP they are two of the biggest.

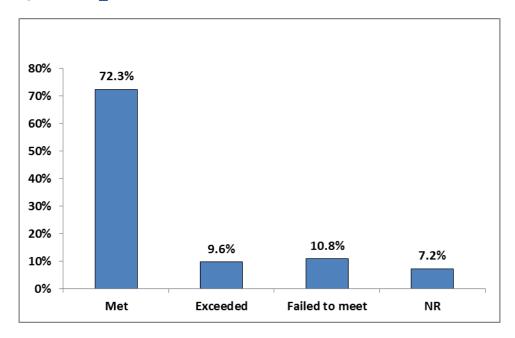

Of those participating in NJCEP, 39.8% participate in WARMAdvantage, 26.5% participate in Home Performance with ENERGY STAR, and 21.7% participate in COOLAdvantage.

The Appliance Rebate program (13.3%) had the least participants from those that participated in the survey.

Question 4_3: Did these programs meet, exceed, or fail to meet your expectations?

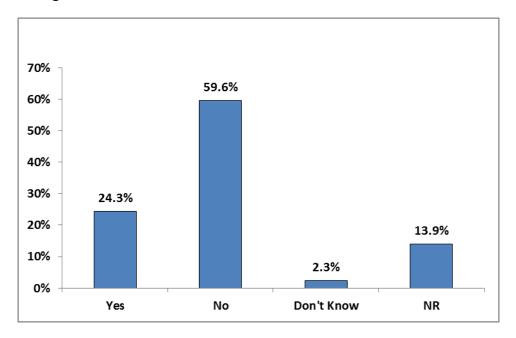

Similar to Question 2 which concerned expectations with participation in previous energy efficient programs, those who participate in NJCEP seem satisfied as far as their expectations are concerned. 81.9% indicated that the NJCEP programs met or exceeded their expectations.

10.8% indicated NJCEP failed to meet their expectations.

Question 6: Have you ever seen any signage in retail stores for lighting products sponsored by NJCEP?

For those that responded "Yes", have you purchased any of these lighting products?

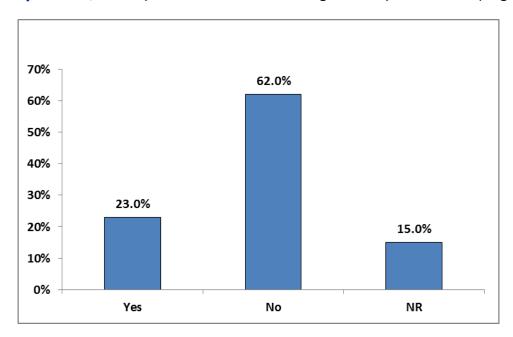

10.4% of respondents have seen signage in stores showing lighting products sponsored by NJCEP (or 42.7% of those that were aware that NJCEP sponsored such products).

Of those aware of the signage, 64.7% have actually purchased NJCEP sponsored lighting efficient products.

Question 7_2: What type of advertisements did you hear or see?

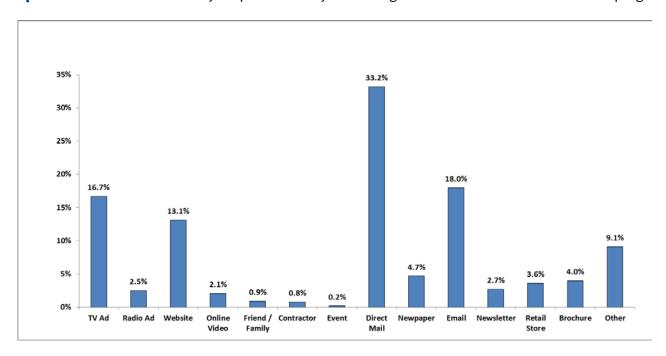

The most typical way people said they heard about NJCEP was through television advertisements. 29.8% of respondents who heard about NJCEP said they found out about it through TV. 16% said they heard about NJCEP through the mail, 15.7% through store displays, and 11.6% through a newspaper.

Only 2.5% heard about NJCEP through email and only 3.3% through social media, but 10.7% indicated that they had heard about NJCEP through a web banner.

Question 8: What would be your preferred way of learning about offers available from NJCEP programs?

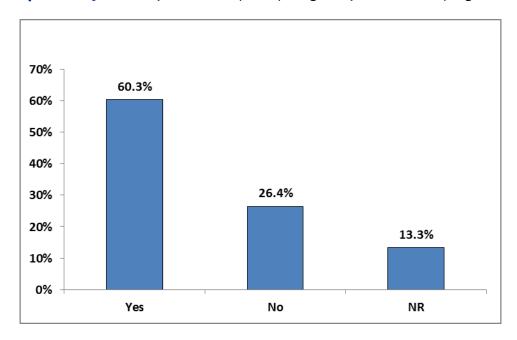

Direct mail is the best way to inform consumers of offers available from NJCEP. One-third of respondents said that a mail piece is best, which held true for all age groups. Direct mail was preferred at almost twice the rate of email (18%) as the best method of informing consumers about NJCEP offers. TV advertisements (16.7%) and a website (13.1%) were preferred almost as much as email.

Other methods of communication – such as newspapers, brochures, retail stores, and online videos - among others - were preferred by less than 5% of respondents.

Question 8: (cont)

Question 9: Would you consider participating in any of the NJCEP programs if you haven't already?

Most respondents (60.3%) would at least consider participating in a NJCEP program but 26.4% indicated they would not consider participating.

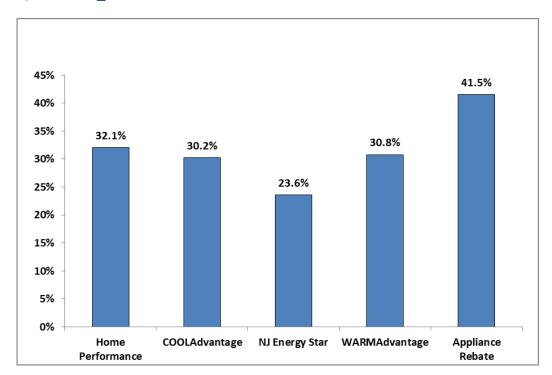

Some of the reasons given for not participating include:

- Already energy efficient
- Because I just added a lot energy efficient products
- Can't afford
- Finances
- For energy efficiency, need more incentives
- Just not wanting to change right now
- Too busy
- Not interested
- Too much hype on the green

Question 10: Have you sought information about energy efficient products in the past year?

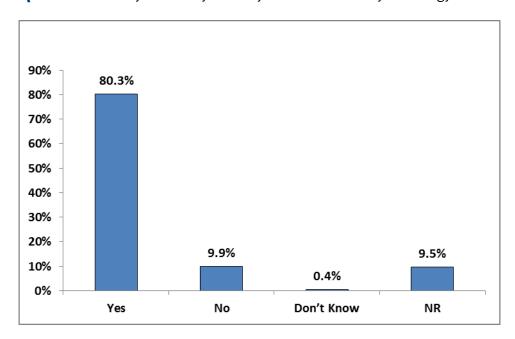

Similar to awareness about NJCEP itself, respondents were almost evenly split on whether or not they have sought information about energy efficient products in the past year. 40.6% indicated that they had sought such information while 48.4% indicated they had not.

Question 11: Do you actively take any actions to reduce your energy use at home?

Regardless of whether or not respondents looked for information about energy efficient products, the vast majority (80.3%) took actions anyway to limit or reduce their use of energy in their home.

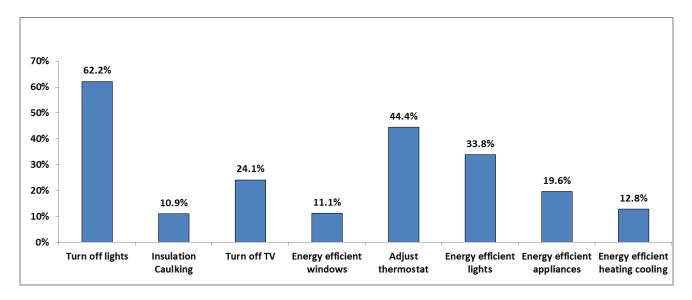

Over 90% of those aged 36 or older took such measures as did married individuals and those that are homeowners.

Question 11 (cont): Which of the following methods do you use to reduce your energy bills?

Turning the lights off (62.2%) was the most common method of reducing energy use, followed by adjusting the thermostat (44.4%) and using energy efficient lights (33.8%).

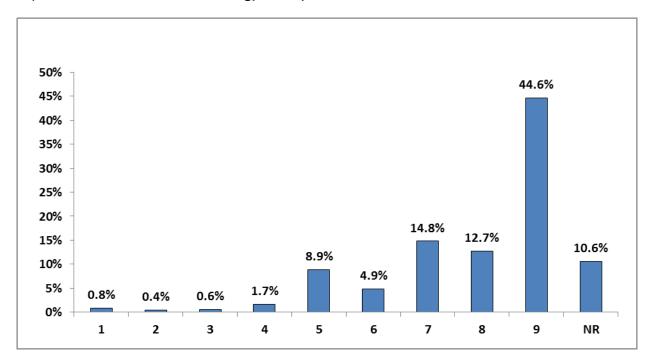

Other methods include turning off the TV (24.1%), using energy efficient appliances (19.6%), and using energy efficient heating and cooling systems (12.8%).

About 11% of respondents used energy efficient windows and insulation and caulking to reduce energy usage.

Question 12: On a scale of 1 to 9, where 1 means 'not at all important' and 9 means 'very important', how important is it to limit or reduce energy use in your home?

Most respondents (77%) feel it is a least somewhat important to limit or reduce energy use in the home. Almost half (44.6%) felt it was very important to do so.

Only 3.5% felt it was not important to reduce energy use. About 20% were either neutral or did not respond to the question.

Question 13: What is the most important reason why you would consider replacing an appliance such as a refrigerator or washing machine? What is the second most important reason?

First Reason:

Second Reason:

Over half of the respondents (56.2%) stated that the most important reason to replace an appliance was because it was not working. Another 27.7% thought the most important reason was to save energy or lower their utility bills. Only 1.3% would replace an appliance to increase the resale value of their home.

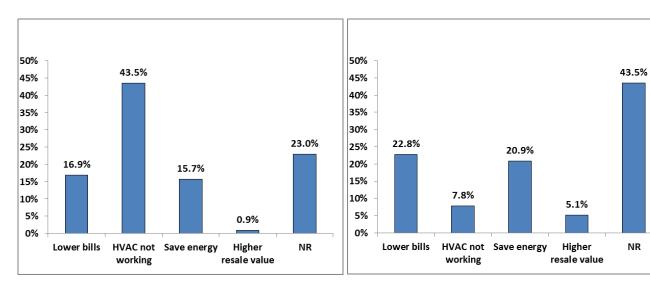

Question 13: (cont)

Q13	TO	TAL				ason why you applicance?	would	The second most important reason?

Question 14: What is the most important reason why you would consider replacing your HVAC system? What is the second most important reason?

First Reason:

Second Reason:

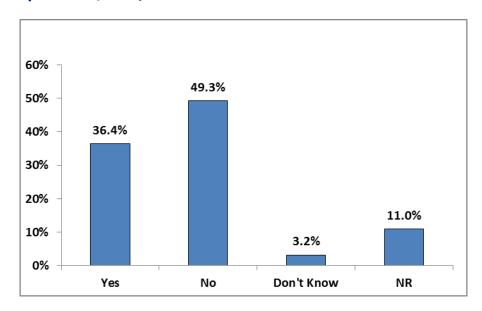

Similar to replacing an appliance, the most common reason for replacing a HVAC system(43.5%) is because it is not working. Perhaps because HVAC systems use more energy, almost a third (32.6%) stated that they would replace a HVAC system to save energy or lower their utility bill.

Question 14: (cont)

Question 16: What is the most important reason why you would consider having a Home Performance with ENERGY STAR audit done on your home? The second most important reason?

First Reason:

Second Reason:

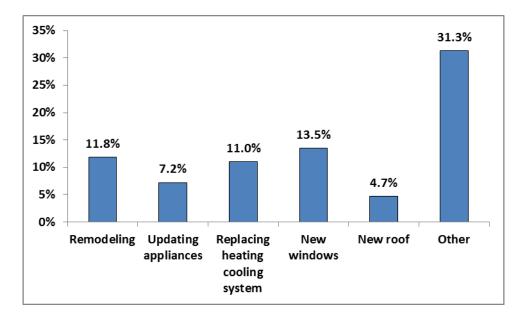

The Home Performance with ENERGY STAR audit is a proactive attempt to determine what needs to be to a home to make it more energy efficient. As such, it is not surprising that 43.5% of respondents stated that the most important reason for such an audit would be to lower their utility bills. Another 18% stated the most important reason was to save energy. In effect, both answers are similar – saving energy reduces utility bills and reducing utility bills saves energy.

Only 3.8% of the respondents stated that the main reason for the audit would be to save the environment and only 3.2% indicated that higher home resale value was the main reason.

Question 17: What improvements to your home have the highest priority at this time?

People have different needs when it comes to improving their home and the responses to the survey were indicative of this. About as many mentioned remodeling (11.8%) as did those who indicated replacing a HVAC system (11%) as did those needing new windows (13.8%). Updating appliances (7.2%) and getting a new roof (4.7%) were also home improvement needs.

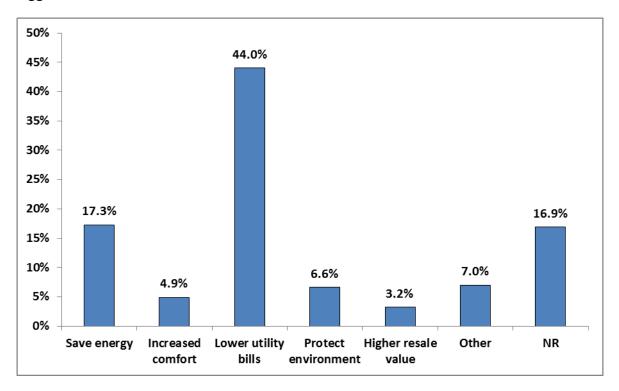

However, most respondents (31.3%) indicated their homes needed some other kinds of improvements. Some of those mentioned include:

- New deck
- Cabinets
- Countertop
- Flooring
- Insulation
- Mold remediation
- New siding
- Painting
- Plumbing

Question 18: If you were to participate in an energy efficiency program, what would you consider to be the biggest benefit?

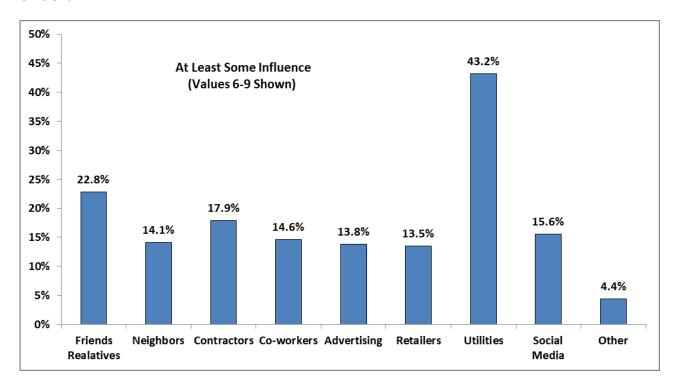

Similar to responses concerning the most important reason for having a Home Performance with ENERGY STAR audit done in the home, respondents consider the biggest benefit of an energy efficiency program to be lower utility bills (44%). Another 17.3% indicated the biggest benefit to be energy savings.

Protecting the environment (6.6%), increased comfort (4.9%), and higher home resale value (3.7%) were mentioned far less often as the biggest benefit of an energy efficiency program.

Question 19: Using a scale of 1 to 9, where 1 means 'no influence at all' and 9 means 'a great amount of influence', how much influence do the following have on you in terms of making your home more energy efficient?

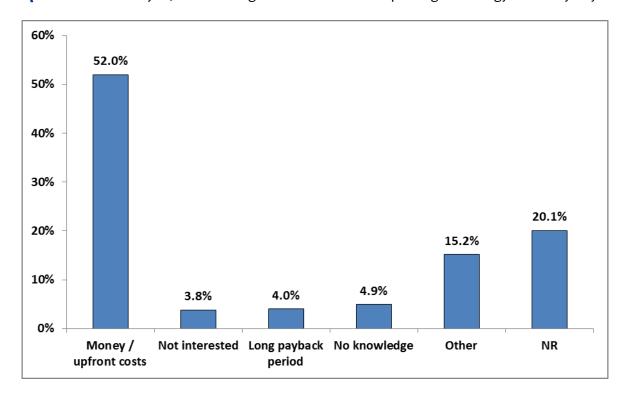

When it comes to those who can influence homeowners on making their home more energy efficient, no one comes close to that of utilities. 43.2% of respondents indicated that utilities have at least some influence on them in terms of making home improvements (at 6 or better on a 9 point scale), almost twice as much as friends and relatives (22.8%), the next closest influencer.

Only 17.9% of respondents think that contractors have any influence on them but that is still more than their neighbors (14.1%), co-workers (14.6%), social media (15.6%), advertising (13.8%), and retail stores (13.5%).

Question 19: (cont)

Question 20: For you, what is the greatest obstacle to improving the energy efficiency of your home?

Staying with the theme of lower utility bills (or cost), the greatest obstacle to improving the energy efficiency of a home is money and upfront costs. This was mentioned by over half of the respondents (52%). A long payback period (4%) does not seem to be much of a factor in a homeowner's decision to improve energy efficiency in their home.

4.9% indicated that they had no knowledge of what to do (perhaps candidates for a Home Performance with ENERGY STAR audit) while 3.8% indicated that they had no interest in energy efficiency improvements.

- **Question 31_Comments:** Please provide any additional comments you may have about energy efficiency programs?
- ID: Response: 17532 ALL FOR IT 6509 A LOT OF PROGRAMS AND NOT ENOUGH SCIENCE 12919 APPRECIATE THAT THEY EXIST 20347 ASSISTANCE TO HELP THE ELDERLY ABOUT ENERGY EFFICIENCY PROGRAMS 24913 CURIOUS AS TO WHY THEY ARE STILL MAKING FLUORESCENT LIGHTS- CFL BULBS 14230 CUT DOWN USAGE 16986 DONE A PRETTY GOOD JOB GOVT AGENGY PSE&G PROBLEMS WITH NJDEP 19557 DON'T HAVE TIME TO RESEARCH NOT THAT IMPORTANT AT THIS TIME FOR IT 4115 19059 GLOBAL WARMING IS A LOT OF BS 13604 GOOD FOR HOUSEHOLD AND ENVIRONMENT 12639 GOVERNMENTS WANT PEOPLE TO BE MORE ENERGY EFFICIENT SHOULD ENCOURAGE PRODUCTS TO **BE LESS COSTLY** HAPPY THAT I CALLED 26792 HARDEST PART IS NOT KNOWING WHAT'S AVAILABLE, NOT KNOWING IF WE QUALIFY. NOT QUALIFYING

FOR LOW-INCOME HELP SO EVERYTHING WOULD BE OUT OF POCKET.

20067 DON'T HAVE ENOUGH INFO ABOUT THE PROGRAMS
12711 HOPE TAX PAYING DOLLARS DON'T PAY FOR IT
20170 I HATE JERSEY CENTRAL POWER AND LIGHT

Question 31_Comments: Please provide any additional comments you may have about energy efficiency programs? (Cont.)

- ID: Response:
- 29320 I SHOULD GET MORE MOTIVATED
- 20471 I THINK THEY ARE A GOOD IDEA
- 5805 I USE IT I WOULD LIKE TO LEARN MORE ABOUT IT IF I AM INTERESTED IN THE PRODUCT OR PROGRAM
- 16794 I WISH PEOPLE CARED MORE ABOUT IT
- 17054 I WOULD LOVE TO HAVE SOLAR ENERGY BUT NOT SO EXPENSIVE
- 2033 IF SO MUCH MONEY IS BEING INVESTED INTO A PROGRAM WHY WOULD THEY NOT LET SOMEONE SWITCH TO A GAS FURNACE WHEN GAS IS MORE EFFICIENT AND MORE ENVIRONMENTALLY FRIENDLY
- 28427 IF THE AMERICAN SOCIETY/GOVERNMENT CANNOT COLLECTIVLY GET BEHIND RENEWABLE ENERGY (AWAY FROM FOSSIL FUELS) ENERGY EFFICENCY IS THE MOST IMPORTANT THING WE COULD DO.
- 11851 IF THEY ARE EVER GOING TO MAKE IT MORE AFFORDABLE TO MAKE IT EASIER FOR SOLAR POWER.
- 16458 IF THEY CAN OFFER SOLAR PANELS
- 21244 I'M NOT SURE IF WOULD BE COST EFFECTIVE AT THIS POINT
- 8893 I'M SUPPORTIVE AND LIKE TO SEE THEM BE SUCCESSFUL AND MORE WIDELY USED
- 16717 IN FAVOR OF THEM
- 7358 IT KILLS ME TO SEE THE WASTE THAT IS ALL OVER THE PLACE. AT THE HOUSE NEXT THERE HAS BEEN A WINDOW BROKE OUT FOR LIKE 4 YEARS
- 11078 ITS HARD TO GET PEOPLE TO CONTRIBUTE. NEED MORE EDUCATION ON THE PROGRAMS
- 1292 JUST WANT TO SEE THEM WORK
- 2463 LEARN MORE
- 6355 LEARNING MORE ABOUT SOLAR ENERGY PROGRAMS
- 19441 LESS BOTHERS AT NIGHTE TIME
- 17434 LETS BE ENERGY INDEPENDENT IN AMERICA KEYSTONE PIPELINE-LET'S DO IT
- 14444 LIKE TO SEE MORE PUSH FOR SOLAR
- 19722 LOOK INTO PROVIDING GAS TO TOWNHOUSES ONLY AVAILABLE FROM FRONT SIDE
- 23876 LOOKING FORWARD TO NEW PROGRAMS AND LEARNING MORE ABOUT THEM
- 7891 MAKE THEM EASIER
- 10278 MORE ADVERTISEMENT
- 9193 MORE AWARENESS ABOUT ALL OF THE PROGRAMS
- 21940 MORE DONE ON THE PUBLIC SIDE
- 17138 MORE INFO
- 10834 MORE OUTREACH TO CUSTOMERS
- 24150 NO JUST SEND ME EMAILS SO I HAVE MORE INFORMATION. MOST OF THESE PROGRAMS HAVE TOO LONG OF A PAYBACK PERIOD
- 7849 ONLY WITH GOV CHRISTIE HE OWES ME MONEY
- 16262 PAYBACK PERIODS ARE WAY TOO LONG
- 2369 PEOPLE ARE NOT AWARE OF ALL THAT'S OUT THERE
- 4660 PRETTY MUCH UP ON ENERGY BECAUSE HE IS AN HVAC CONTRACTOR
- 21414 PROMOTE RENEWABLE AS MUCH AS POSSIBLE REMOVE ALL SOURCES OF POLLUTANTS
- 16786 PROMOTED MORE
- 4449 READING ABT OUTLETS, SMART PLUGS, SHUTS OFF ELECTRIC, LIKE MORE INFORMATION
- 3526 SEEM TO BE WORKING AND HEAR GOOD THINGS ABOUT
- 19650 SEE BETTER DEALS FOR SENIORS
- 9433 SEE MORE INFO
- 7293 SHE WAS PROVIDED A PROGRAM ENERGY ASSISTANCE THAT WAS FANTASTIC HELPED HER LOWER HER BILL
- 14940 SHOULD BE AVAILABLE TO ALL INCOME BRACKETS

Question 31_Comments: Please provide any additional comments you may have about energy efficiency programs? (Cont.)

- ID: Response:
- 15703 THE HOME PERFORMANCE WITH ENGERY STAR REQUIREMENTS ARE ENABLING CONTRACTORS TO MILK TO FEES, CHARGE TOO MUCH, REBATES AND BENEFITS GO TO THE CONTRACTORS
- 4195 THE STATE NEEDS TO HAVE A BIGGER ROLE IN HOW IT EFFECTS US
- 5682 THEY ARE GREAT IF MORE PEOPLE USED THEM
- 17267 THEY ARE VERY IMPORTANT
- 20537 THEY ARE WONDERFUL
- 17079 THEY ARE WONDERFUL
- 18543 THEY SHOULD BE PUT FORTH SO PEOPLE CAN UNDERSTAND THEM WITHOUT THE FINE PRINT
- 2051 THEY SHOULD DO MORE TO HELP PEOPLE REDUCE THE COST UTILITIES
- 7416 THINK A GOOD IDEA AND COULD BE PROVIDED AT LOW COST MORE PEOPLE WOULD DO SOMETHING ABOUT IT
- 17241 THINK SAVING ENERGY IS A GOOD IDEA
- 19114 THIS CALL WAS A GOOD THING!!
- 4886 TOO EXPENSIVE TO UPGRADE
- 1871 TOO MUCH INFORMATION, NOT CLEAR ENOUGH
- 29395 VERYAPPEALING ON MANY LEVELS
- 17679 VERY INTERESTED IN RENEWABLES ANY ENERGY RENEWABLES
- 23007 VERY LOW COST TO IMPROVE TO BETTER BILLS
- 16727 WE SHOULD BE CAFEFUL ON USE OF OUR ENERGY
- 14248 WEBSITES NEED TO BE IMPROVED MORE TESTIMONIALS
- 20478 WHEN I GET INTO I EXPECT TO SEE RESULTS
- 1852 WHY DON'T PUBLIC EMPLOYEES QUALIFY FOR PROGRMS
- 22758 WISH THAT THERE WOULD BE MORE OPTIONS READILY AVAILABLE. LIVE IN A TOWNHOME SO CAN'T PUT SOLAR PANELS ON ROOF, WISH COULD PLACE SOMEWHERE ELSE AROUND THE HOUSE.
- 95 WISH THERE WAS A LOT MORE VISIBILITY PROGRAMS FOR SOLAR PANELS
- 15565 WISH THEY WORKED AS WELL AS THEY SAID THEY WORK
- 2480 WISH THEY WOULD CONTINUE/REVIVE SOLAR AND RENEWABLE ENERGY AWARENESS IN NJ. GOVERNMENT SHOULD BE MORE INVOLVED
- 13219 WITH ALL OF THE ENERGY IN THE COUNTRY WHY FOCUS ON SOLAR ENERGY INSTEAD OF NATURAL GAS
- 13195 WITH ALL THE INFORMATION ON SOCIAL MEDIA AND APPLIANCES WHY HASN'T BEEN DONE SOONER
- 13396 WOULD LIKE TO BE AWARE TO THE PUBLIC FEELS LIKE THEY KEEP A SECRET
- 3453 WOULD LIKE TO SEE PRODUCTS OR DETAILS VIA EMAIL
- 8432 YAZID
- 16727 YOU ARE DELIGHTFUL AND GOOD AT WHAT YOU ARE DOING KEEP IT UP

Survey

Honeywell Energy Efficiency Program Survey – Residents

(Note to surveyors – shopping for electric or gas suppliers is not a Clean Energy Program)

pec	ello, this is calling for New Jersey's Clean Energy Program ople feel about saving energy. We'll also enter you in a drawing for ould I have 8 minutes of your time to ask you a few questions?		_	•
Th	e first few questions are related to your awareness of any energy efficie	ency programs in	the state	of New Jersey.
1.	Have you ever heard of the New Jersey Clean Energy Program, of <i>If YES:</i> Does the state, your utility, or someone else administrate □ State □ Utility □ Someone else Who?	ster this progra		No □ Don't know
	Have you ever visited the NJCEP website (www.njclean ☐ Yes ☐ No ☐ Don't know	energy.com) to	get mor	e information?
2.	Have you ever participated in an energy efficiency program offer or gas utility, or some other entity? \Box Yes \Box No \Box Don't kn	now		
	If YES: What type of program was it?			
	Did this program meet, exceed, or fail to meet you	r expectations?		
	☐ Met ☐ Exceeded ☐ Failed to meet			
	If FAILED TO MEET: Why?			
3.	Have you ever heard of the following programs offered by NJCE	EP? (read, rotate, o	explain as No	necessary) Don't Know
	Home Performance with ENERGY STAR			
	(program offers up to \$5,000 in incentives for energy efficient upgr 0% interest loan up to \$10,000)	ades, and a		
	New Jersey ENERGY STAR Homes			
	(new homes built to be more energy efficient than traditionally built h	homes)		
	Energy Efficient Appliance Rebate Program			
	(Rebates for the purchase of energy efficient clothes washers, refrigerators, and incentives to recycle old refrigerators and free program also offers discounted lighting products in many stores threstate.	ezers. This		
	<i>COOL</i> Advantage			
	(rebates for installation of energy efficient cooling systems)			
	WARMAdvantage			
	(rebates for installation of energy efficient heating systems)			
	If YES to any of the above go to Question 4 If NO to all	of the above, g	go to Qu	estion 8
4.	Have you participated in any of these NJCEP programs? ☐ Yes	s □ No		
	If YES: Which programs have you participated in? (check all the			
		COOLAdvantag	e	
		VARMAdvantas		

	☐ The Energy Efficient	Appliance Rebate Progr	ram					
		ns meet, exceed, or fail to Exceeded		ntions?				
		If FAILED TO MEET	: Why?					
5.	state?		nany energy efficie	nt lighting products in stores throughout the				
	☐ Yes ☐ No ☐ Do	on't know						
6.	Have you ever seen any sig	nage in retail stores for l	ighting products spo	onsored by NJCEP?				
	☐ Yes ☐ No ☐ Do	on't know						
	If YES: Have you pure	chased any of these lighti	ing products?	☐ Yes ☐ No				
	This next set of questions v	will be related to advertis	sing for the Clean 1	Energy Program.				
7.	•	•		☐ Yes ☐ No ☐ Don't know
