Regarding Segment 2 (Pole-attached): Riggs Distler is the installation contractor, not an EPC contractor

An adjustment of CWIP of approximately \$3.9M has been allocated to the individual projects on Segment 1A to properly account for project costs.

Notes:
"Cost per Project" corresponds to projects that have been placed in service.

<sup>&</sup>quot;NPV of 20 Year Lease Cost" is derived using an annual discount rate of 5.07%

#### Notes

- 1) "SREC's Sold" and "SREC Revenue" includes vintage year 2011, 2012 and 2013 SRECs
- 2) "Net Energy Sales" and "Net Capacity Sales" are tied to calendar month sales reported. These values may not tie to the amounts recorded for financial reporting due to timing of PJM invoices. Net Energy Sales for monthly, YTD, and PTD figures include South Jersey Energy Sales.
- 3) Monthly "Pole-attached Units Installed" & "Pole-attached MW Installed" are preliminary estimates and subject to change. Adjustments to prior months will be reflected in YTD values.

  Capacity specified in certain previously filed capacity reports represented gross installed capacity. The values shown in the table above account for net installed capacity (total installs minus total removals).
- 4) "Pole Attached Units Communicating" represents the average, daily number of panels that communicated during the month.
- 5) The columns "Energy Produced" and "SRECs Sold" do not sync because of the timing of SREC auctions, through which SRECs are sold.
- 6) Business interruption insurance recovery received for lost energy sales and SREC sales due to Superstorm Sandy

### Seg1 (Plants):

• Observed irradiance was below average for January due to poor weather conditions and snow coverage.

### Seg2 (Pole Attached Solar):

- Installation of solar units and development of communications network continues.
- Ongoing maintenance of existing installations continues.
