## STATE OF NEW JERSEY Board of Public Utilities Two Gateway Center Newark, NJ 07102 www.bpu.state.nj.us

IN THE MATTER OF COMPREHENSIVE ENERGY
EFFICIENCY AND RENEWABLE ENERGY RESOURCE
ANALYSIS FOR 2005 -2008: 2008 PROGRAMS
AND BUDGETS:
COMPLIANCE FILINGS

CLEAN ENERGY
)
SUMMARY ORDER
)
DOCKET NO. EX04040276

(SERVICE LIST ATTACHED)

#### BY THE BOARD:

This Summary Order memorializes, in summary fashion, action taken by the Board at its special Agenda meeting on December 20, 2007. The Summary Order is intended to adopt the Clean Energy Program and Budget for 2008 consistent with the Board's action on December 20, 2007. At that meeting, the Board, after consideration of stakeholder comments, voted to approve the 2008 budget and programs for the Clean Energy Program as proposed by the entities managing each program with revisions as recommended by the staff of the Office of Clean Energy (Staff). An Order setting out the budget and programs in more detail, together with the Board's reasoning in adopting the budget and programs, will follow.

Staff recommended adoption of a Clean Energy Program budget for 2008 in the amount of \$391,475,000, of which \$235,000,000 represents funding allocated for 2008 as approved by the Board in its Order dated December 23, 2004 in Docket No. EX04040276. The remaining \$156,475,000, which has no impact upon rates, represents other anticipated funding and estimated carryover from 2007. The recommended budget comprises \$193,819,000 in funding for the Energy Efficiency Program, \$185,486,000 in funding for the Renewable Energy Program, and \$12,200,000 in funding for the Office of Clean Energy's Oversight budget.

The Energy Efficiency Program includes programs managed by Honeywell International, Inc. (Honeywell), TRC Energy Services (TRC), the utilities, the Department of Environmental Protection (DEP), the Department of Community Affairs (DCA), the Department of Treasury (Treasury), and Staff. The Renewable Energy Program includes programs managed by Honeywell, the utilities, DEP, and Staff. Honeywell,

TRC, the utilities and Staff have submitted compliance filings; compliance filings from DEP, DCA, and EDA, which administer certain energy efficiency and renewable energy programs for the Board, are anticipated in early 2008. The funding for the program managed by Treasury was allocated by the Appropriations Act for the State Fiscal Year ending June 30, 2008.

The Office of Clean Energy's Oversight budget includes administration and overhead, evaluation and related research, and marketing and communications expenses.

Both the 2008 Clean Energy Program budget and the programs being funded have been the subject of an extensive public stakeholder process, with notice and opportunity for comment from public stakeholders. Consistent with the approved contracts with the Market Managers and the Program Coordinator, Staff has held extensive discussions with the Market Managers and the Program Coordinator regarding the programs and budgets set out in the program filings. Staff, in conjunction with these contractors, has held public meetings to receive comments and input into the development of the 2008 programs and budget. Monthly public stakeholder meetings of the Clean Energy Program's Energy Efficiency and Renewable Energy committees, chaired by Staff, began to include discussion of the 2008 program plans and budgets starting in June 2007. Discussions ensued at the meetings held on June 12th, July 17th, August 14th. September 18th, October 9th, October 31st, and November 13th. At each of these meetings, Honeywell and TRC discussed proposed changes to the programs and budgets and solicited comments from meeting participants regarding other suggested changes to the programs. In addition, on November 8, 2007, the New Jersey Clean Energy Program Plan filings submitted by Honeywell and TRC were electronically distributed to the Clean Energy Council and its RE and EE committees with a request for written comments by November 30, 2007. A meeting of the CEC was held on November 27, 2007 at which the proposed programs and budgets were presented and discussed.

# The following sets out the 2008 Energy Efficiency Program budgets recommended by Staff:

Energy Efficiency Programs	2008 Energy Eff					
(All numbers = 000's)	NJBPU	Estimated		New	Final	Committed
	Approved	2007	2007	2008	2008	Expenses

<sup>(</sup>a) = Board approved 2007 budgets

Staff has considered the extensive public stakeholder input received, as well as the comments of the Market Managers and Program Coordinator. Staff believes the

<sup>(</sup>b) = Estimated 2007 expenses from 7&5 report

<sup>(</sup>c) = 2007 budget less estimated expenses. Negative carryover occurs where estimated expenses exceed budget.

<sup>(</sup>d) = Level of new 2008 funding allocated to each program.

<sup>(</sup>e) = 2007 carryover plus new 2008 Funding.

<sup>(</sup>f) = The Office of Clean Energy is a member of NARUC's committee on Energy Resources and the Environment

programs and budgets, as discussed above, will deliver significant benefits to the State. Therefore, Staff recommends approval of the 2008 program and budget filings as discussed above.

The Board has reviewed Staff's recommendations regarding the 2008 program and budget filings submitted by OCE, Honeywell, TRC, and the utilities, as well as comments submitted by other stakeholders. As a threshold matter, the Board has carefully considered the procedural issues raised by Potter and Dickson, and for reasons which will be set forth in more detail in the Order which follows, <code>FINDS</code> that the process utilized to adopt the 2008 Programs and Budget, as well as the other determinations set forth herein, to be appropriate and has provided stakeholders the opportunity to make comments and for the Board to carefully consider all such comments. The Board further <code>FINDS</code> Staff's recommendations, as discussed above, to be reasonable. Therefore, the Board <code>HEREBY APPROVES</code> the revised 2008 program and budget filings filed by OCE, Honeywell, TRC and the utilities and the budgets as set forth in the tables above. The Board <code>APPROVES</code> the budgets for DEP, EDA, and DCA set out in the table above subject to review and approval of an MOA and program filing with each Department.
