	Tracking Metrics	22
IV.	Notes and Definitions	25

I. Executive Summary

This document reports the results of New Jersey's Clean Energy Program ("NJCEP"), administered by the New Jersey Board of Public Utilities' (the "Board" or "NJBPU") Division of Clean Energy ("DCE"). Included are financial, tracking metric, energy saving/generation, and emission reduction data for the statewide energy efficiency and renewable energy programs. This report captures the progress of the clean energy programs in place during the period from July 1, 2022 through March 31, 2023, also referred to as 3QFY23.

In its role as NJCEP Program Administrator, TRC Energy Services ("TRC"), a division of TRC Environmental Corp., and members of its team manage the majority of the NJCEP programs and report on the activities of the DCE, NJ Economic Development Authority ("EDA"), and seven of New Jersey's investor-owned electric and natural gas utilities as related to their involvement in the operation of the Comfort Partners low-income program.

Section III of this report includes detailed worksheets showing:

- 1. Expenditures compared to budgets for each program
- 2. Expenditures broken down by the following specific expense categories:
 - a. Administration and Program Development
 - b. Sales, Call Centers, Marketing, and Website
 - c. Training
 - d. Rebates, Grants, and Other Direct Incentives
 - e. Rebate Processing, Inspections, and Other Quality Control
 - f. Evaluation and Related Research
- 3. Metric tracking results from implementation of any given program
- 4. Annual electric and gas energy savings compared to annual goals
- 5. Annual and lifetime:
 - a. Electric and natural gas energy savings and demand reductions
 - b. CHP and fuel cell electric capacity and generation
 - c. Renewable energy capacity and generation
- 6. Annual and lifetime emissions reductions for Carbon Dioxide (CO₂), Nitric Oxide (NO_x), Sulfur Dioxide (SO2), and Mercury (Hg)

The tables presented below summarize the program results reported in more detail in Section III.

Summary of Expenses vs. Budgets

Table 1 (below) includes program budgets, actual spending, and commitments for the energy efficiency programs, renewable energy programs, distributed energy resources ("DER") programs, EDA programs, and the DCE program administration costs. Committed expenditures in Tables 1–5 represent firm commitments that existed as of March 31, 2023 for incentives that will be paid upon project completion, which for certain programs, such as Pay-for-Performance and Residential New Construction, could be up to two years after the commitment is made. Committed expenses are paid out of the budget in the year the project is completed.

Note: Data presented in the following tables may not add up precisely to totals provided due to rounding. The overall budget included in the following tables represent the budget in place as of March 31, 2023.

Summary of Budget and Expenditures Statewide: 3QFY23 (07/01/2022 -03/31/2023)								
Expenses Budget Actual Committed Total								
Energy Efficiency (EE)	\$256,373,502.00	\$55,452,984.66	\$152,458,426.96	\$207,911,411.62				
Distributed Energy Resources	\$23,771,608.00	\$5,446,577.51	\$10,247,377.88	\$15,693,955.39				
Renewable Energy Programs	\$31,962,396.00	\$3,641,173.59	\$21,202,576.66	\$24,843,750.25				
EDA Programs	\$28,910,000.00	\$42,873.95	\$21,665,906.00	\$21,708,779.95				
Planning & Administration	\$56,289,084.00	\$13,500,782.58	\$25,204,157.28	\$38,704,939.86				
BPU Initiatives	\$120,770,931.00	\$9,215,790.34	\$105,615,140.66	\$114,830,931.00				
Total	Total \$518,077,521.00 \$87,300,182.63 \$336,393,585.44 \$423,693,768.07							

Table 1: Budgets and Expenditures

Table 2 (below) includes program budgets and YTD spending and outstanding commitments for the energy efficiency programs.

Summary of Energy Efficiency Program Budgets and YTD Expenditures Statewide: 3QFY23 (07/01/2022 -03/31/2023)						
Program	Budget	Expenses Actual	Expenses Committed	Total		
NEW CONSTRUCTION PROGRAMS						
C&I New Construction Program	\$12,512,644.40	\$2,392,256.46	\$8,013,516.16	\$10,405,772.62		
Residential New Construction Program	\$17,804,047.60	\$6,041,352.40	\$8,497,187.41	\$14,538,539.81		
Sub-Total: Residential Programs	\$30,316,692.00	\$8,433,608.86	\$16,510,703.57	\$24,944,312.43

Please note that the management of the following programs transitioned to the State's electric and natural gas utilities on July 1, 2021: Existing Homes, Energy Efficient Products, portions of Existing C&I Buildings, and Direct Install. In FY23, NJCEP continued to process applications for these programs which were received by June 30, 2022 and new applications for equipment purchased on or before March 31, 2023.

Table 3 (below) includes program budgets, and YTD spending and outstanding commitments for the DER programs.

Summary of Distributed Energy Resources Program Budgets and YTD Expenditures Statewide: 3QFY23 (07/01/2022 -03/31/2023)							
Program	Budget	Actual	Expenses Committed	Total			
DISTRIBUTED ENERGY RESOURCES	* • - - • • • • • • • • • • • • • • • • • • •	.	* ••••• • • • ••••	\$10,000,000,00

TOTAL BPU Initiatives	\$120,770,931.00	\$9,215,790.34	\$105,615,140.66	\$114,830,931.00		

Enhanced Incentives

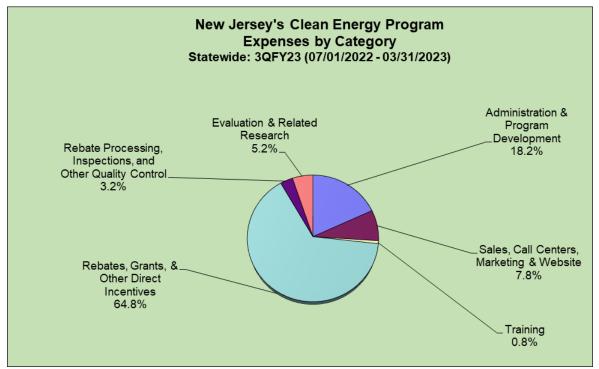

In FY20, the BPU approved "enhanced incentives" for certain customers, including customers located in an Urban Enterprise Zone ("UEZ"); customers located in an Opportunity Zone ("OZ"); low- to moderate-income customers, including those living in "affordable housing"¹; K-12 public schools; and municipal and county entities. Table 7 (below) includes data for customers eligible for an enhanced incentive.

Note: Effective February 1, 2021, enhanced incentives for prescriptive lighting measures (prescriptive lighting, lighting controls, and performance lighting) within the SmartStart and Customer Tailored Energy Efficiency Pilot programs have been eliminated.

New Jersey's Clean Energy Program Enhanced Incentives - Total Reporting Period: 07/01/2022 to 03/31/2023	Total Number of Projects Paid	Total Number of Projects Committed	Base Incentives Paid	Enhanced Incentives Paid	Total Incentives Paid	Base Incentives Committed	Enhanced Incentives Committed	Total Incentives Committed	Total Incentives Paid & Committed
TOTAL Residential Programs	5	0	\$5,556.00	\$2,500.00	\$8,056.00	\$0.00	\$0.00	\$0.00	\$8,056.00
TOTAL Commercial & Industrial Buildings	4044	106	\$51,612,815.11	\$35,002,284.77	\$86,615,099.88	\$8,711,372.71	\$8,022,875.21	\$16,734,247.92	\$103,349,347.80
TOTAL NJCEP (ENHANCED INCENTIVES)	4049	106	\$51,618,371.11	\$35,004,784.77	\$86,623,155.88	\$8,711,372.71	\$8,022,875.21	\$16,734,247.92	\$103,357,403.80

Table	7:	Enhanced	Incentives
-------	----	----------	------------

As shown in Table 8 (above), 64.8% of 3QFY23 program expenditures were for rebates, grants, and other incentives. This includes rebates and other direct incentives paid to participating customers, along with the cost of any measures installed in customer homes, and any payments made pursuant to any NJCEP grant.

¹ Affordable Housing is defined as any housing that an official document identifies as participating in a federal, state, or local affordable housing program, including, by way of example only, the New Jersey Department of Community Affairs listing of Affordable Housing available here,

<u>https://www.state.nj.us/dca/divisions/codes/publications/developments.html</u>, as well as official documents showing identification by the documents regarding New Jersey Housing and Mortgage Finance Agency, United States Low-Income Housing Tax Credit ("LIHTC"), and United States Housing and Urban Development ("HUD").

Summary of Energy Savings/Energy Capacity & Generation

The worksheets provided in Section III include detailed energy savings data, CHP-Fuel Cell generation data, and renewable energy generation data by program. The annual and lifetime savings/generation data are for measures installed from July 1, 2022 through March 31, 2023. Savings include reductions in electric energy and natural gas usage, as well as reductions in electric peak demand requirements. CHP-Fuel Cell and renewable energy generation include both electric generation and capacity.

Annual savings/generation is equal to the annual savings/generation of any measure installed from July 1, 2022 through March 31, 2023. The lifetime savings/generation is the expected savings/generation over the expected life of these measures. Measure lives range from 15 years for certain lighting, such as LEDs, to 25 years for renewable energy systems and new home measures.

Table 9 (below) summarizes annual and lifetime energy savings, CHP-Fuel Cell generation, and renewable energy generation from measures installed from July 1, 2022 through March 31, 2023.

-	gy Savings/Energy Ca e: 3QFY23 (07/01/2022	• •	on
	Actual	Committed	Total
<u>Demand</u>

Table 9: Energy Savings/Energy Capacity and Generation

Summary of Annual Emissions Reductions

Reducing electric and natural gas usage and generating electricity using renewable sources of electricity reduces the greenhouse gases that would have been emitted if the saved electricity or natural gas was otherwise used or if the electricity was generated on the electric grid. CHP-Fuel Cell projects also reduce greenhouse gas emissions, since they tend to use cleaner technologies that produce fewer emissions than if the electricity was generated by the grid.

Table 10 (below) summarizes the emission reductions that result from the installation of program measures.

Summary of Annual Emiss Statewide: 3QFY23 (07/01/2	
<u>CO2 (Metric Tons)</u>	All Programs
Energy Efficiency CHP-Fuel Cell Renewable Energy	55,321 18,742 <u>251,592</u> <u>325,655</u>

Additional information can be found at <u>www.njcleanenergy.com</u>.

II. Introduction

This document reports the results of the NJCEP for 3QFY23. With its 2001 Comprehensive Resource Analysis ("CRA") Order, the Board required the implementation of new energy efficiency programs to replace existing demand side management ("DSM") programs and the development of programs to foster new clean energy resources, such as those provided by renewable energy sources. Starting in 2007 and through 2015, the programs were managed by the DCE, primarily through contracts with Honeywell Utility Solutions ("Honeywell") and TRC. Starting in 2016, the programs were managed by the DCE through the NJCEP Program Administrator contract awarded to TRC and members of its implementation team.

Included in this report are financial, tracking metric, energy savings, and emissions reduction data for the energy efficiency and renewable energy programs managed by the TRC team, as well as New Jersey's seven investor-owned electric and natural gas utilities, which continue to manage the Comfort Partners low-income program, i.e., Atlantic City Electric Company ("ACE"), Jersey Central Power & Light Co. ("JCP&L"), New Jersey Natural Gas Co. ("NJNG"), Elizabethtown Gas Co. ("E-Town"), Public Service Electric & Gas Co. ("PSE&G"), Rockland Electric Company ("RECO") and South Jersey Gas Co. ("SJG")², by the NJ Economic Development Authority, and by the DCE.

This report presents program results for the period from July 1, 2022 through March 31, 2023, also referred to as 3QFY23. The data worksheets included in Section III have been formatted to reflect the Board's actions in adding, deleting, or modifying the lineup of programs offered through that time. Program financial results for the period are measured against those budgets.

² Comfort Partners is included as part of the NJCEP and therefore, included in this report. All other utility managed programs report results separately to the BPU.

The Board approved the following FY23 Clean Energy Programs:

As noted above, the management of the following programs transitioned to the State's electric and natural gas utilities on July 1, 2021: Existing Homes, Energy Efficient Products, portions of Existing C&I Buildings, and Direct Install. In FY23 NJCEP continued to process applications for these programs which were received by June 30, 2022 and new applications for equipment purchased on or before March 31, 2023.

III. Q3FY23 Reporting Data Worksheets

The following tables provide cumulative information regarding various aspects of New Jersey's Clean Energy Program for the third Quarter of FY23, i.e., from July 1, 2022 through March 31, 2023. This data has been compiled by the NJCEP's current Program Administrator, TRC, using the NJCEP's Information Management System ("IMS"), a custom data tracking application administered and maintained by TRC.

Reported data includes: (1) expenses by cost category, (2) electric savings, generation, and gas and other fuel savings compared to goals, (3) electric savings, generation, and gas and other fuel saving quantities, (4) calculated emissions reductions, and (5) metrics. All data is associated with NJCEP activity during the reporting period.

Detailed Expense Data for Reporting Year

IV. Notes & Definitions

1

Notes

For Utility Comfort Partners actual participation figures represent results reported by electric utilities only.

	Definitions
1	A commitment exists where the associated customer has received a letter of commitment or other signed agreement from the NJCEP and the project is slated for completion prior to an expiration date. Once completed and paid, a committed project is shifted from "Committed" to "Installed". Committed figures are adjusted to reflect any commitments that are cancelled.
2	Committed Expenditures are the amount of rebate commitments that exist as of the end of the reporting period. A committed expenditure may also be represented by a contractor who has completed the work but has yet to be paid.
3	Administration and Program Development Expenditures are direct labor and employee overhead costs incurred in developing and managing the New Jersey's Clean Energy Programs by the NJBPU's Division of Clean Energy, the utility program managers, the Economic Development Authority, or any other program manager, except those costs that are appropriately allocated to any of the other expense categories described below, plus the costs of facilities (including telephone, computers, supplies, etc.) and legal support services. For the NJCEP Market Managers, Administration and Program Development Expenditures are those costs identified in the market managers contracts as "Program Administration costs.
4	Sales, Call Centers, Marketing and Website Expenditures - Sales and Call Center Expenditures are expenses related to the enrollment of program participants and in working with trade allies. This category includes activities that close leads and those that involve direct interaction with customers, either in person or over the telephone. It also includes inbound and outbound telemarketing and call center activities Marketing and Website Expenditures are costs incurred for advertising, promotions, third-party or internal marketing, advertising agency activities and services, postage, and exhibits and trade shows. Marketing activities are those that generate leads and general program awareness and include the development and production of collateral materials such as brochures, direct mail materials, etc.
5	Training Expenditures are costs related to training including the planning and execution of training events, seminar materials, etc.
6	Rebates, Grants and Other Direct Incentives are rebates and other direct incentives paid to participating customers and any payments made pursuant to any Clean Energy Program grant.
7	Rebate Processing, Inspections and Other Quality Control Expenditures are costs incurred in processing and tracking rebate, grant and other program applications and payments, and in inspecting qualified projects to ensure compliance with program requirements and other quality control measures.
8	Evaluation and Related Research Expenditures are costs related to market research and program evaluation, including the collection and input of information, technical support, collaborative input, process support, and any required outside studies.
9	Installed Savings represents the savings accrued as a result of the initiation of a given program and the installation of recorded measures.
10	Committed Savings represents the savings that will accrue from commitments for program participation made in the reporting period, but scheduled for installation in future reporting periods.
11	Annual Savings means the yearly (12 months) savings that will result from a measure installed or committed to during the program year.
12	Lifetime Savings means the savings to be accrued over the expected life of a measure installed or committed to during the program year.
13	DEP Emissions Reduction Factors for electric programs are as follows: - CO2 (Carbon Dioxide) emissions are reduced by 1,111.79 lbs per MWh saved - NO4 (Nitric Oxide) emissions are reduced by 0.95 lbs. Per MWh saved - SO2 (Sulfur Dioxide) emissions are reduced by 2.21 lbs per MWh saved - Hg (Mercury) emissions are reduced by 2.11 mg per MWh saved
14	DEP Emissions Reduction Factors for gas programs are as follows: - CO2 (Carbon Dioxide) emissions are reduced by 11.7 lbs per Therm saved - NO4 (Nitric Oxide) emissions are reduced by .0092 lbs per Therm saved

Units of Measure for Tracking Metrics:		
RESIDENTIAL ENERGY EFFICIENCY PROGRAMS		
Residential HVAC		
 COOL Advantage Completed Applications 	=	Number of central air conditioners and heat pumps rebated
 WARM Advantage Completed Applications 	=	Number of furnaces, boilers, and hot water heaters rebated
Residential New Construction		
- Enrollments	=	Number of homes enrolled with commitments to build to RNC efficiency standards
- Completions	=	Number of homes completed per RNC efficiency standards
Energy Efficient Products		
- Clothes Washer Applications Completed	=	Number of clothes washers rebated
- Large Appliance Recycling Applications Completed	=	Number of recycled large appliances rebated
- Consumer Electronics Applications Completed	=	Number of set-top boxes, televisions, etc. distributed
- Refrigerator or Applications Completed	=	Number of refrigerators rebated
Home Performance with ENERGY STAR		
- Tier 2 Enrollments	=	Number of homes approved to complete Tier 2 HPwES measures
- Tier 2 Completions	=	Number of homes that completed Tier 2 HPwES measures
- Tier 3 Enrollments	_	Number of homes approved to complete Tier 3 HPwES measures
- Tier 3 Completions	=	Number of homes that completed Tier 3 HPwES measures
	-	NUMBER OF THE TALL COMPLETED THE VESTICASULES
RESIDENTIAL LOW INCOME PROGRAMS		
Comfort Partners		
- Homes Completed	=	Number of homes with electric measures installed (gas homes completed is a subs
		of electric homes completed
COMMERCIAL & INDUSTRIAL PROGRAMS		
C&I New Construction		
- Applications Approved	=	Number of applications approved
- Applications Completed	=	Number of applications rebated
C&I Retrofit		
- Applications Completed	=	Number of applications rebated
Pay-for-Performance - New Construction		
- Proposed ERP Approval	=	Number of projects that have approved proposed ERPs
- As-Built Energy Reduction Plans Completed	=	Number of projects that have submitted As-Built ERPs
- Commissioning Reports Completed	=	Number of projects that have completed their commissioning report
Pay-for-Performance - Retrofit		
- Approved Energy Reduction Plans	=	Number of projects that have approved ERPs
- Installations Completed	=	Number of projects that have completed installation of recommended measures
- M&V Reports Completed	_	Number of projects that have completed their measurement and verification report
Local Government Energy Audit	-	
- Audits Reviewed and Processed	=	Number of audit applications reviewed and processed
- Audits Reviewed and Processed	_	Number of audit applications reviewed and processed
Direct Install	-	Humbor of addit applications repaide
- Applications Completed	=	Number of projects completed
Large Energy Users Program	-	Humber of projects completed
- Approved FEEPs	=	Number of applications with approved Final Energy Efficiency Plans
C&I CHP-FUEL CELL PROGRAMS		
CHP-Fuel Cell: Large and Small		Number of applications approved
- Approved Applications	=	Number of applications approved
- Completed Installations	=	Number of applications that have completed installation of the CHP measures
RENEWABLE ENERGY PROGRAMS		
SREC Registration Program		
- Applications Accepted	=	Number of applications approved
- Applications Accepted
