Understanding Your Bill

Full Service applies to customers who elect not to participate in Retail Choice and continue to receive both the supply and delivery of electricity from Rockland Electric Company.

Retail Choice applies to electric customers who purchase their energy supply from an alternate energy provider rather than from the utility company.

Basic Service Charge covers the cost of metering, billing and other customer services. This charge may include the cost of a minimum amount of usage that is billed.

Basic Generation Service Charge recovers all costs incurred by the company from purchasing electricity for full service customers.

Reconcile Charge recovers the differences between amounts paid to BGS suppliers and BGS revenue for the preceding months for the applicable BGS supply.

Capacity Charge recovers costs the Company pays for the capacity it purchases from PJM.

Distribution and Transmission Charge reflects the cost of delivering energy through our lines to your home or business.

CIEP Standby Fee recovers the costs associated with the administration, maintenance and availability of BGS-CIEP service.

Transmission Surcharge recovers the charges related to transmission enhancement projects.

Supplier's Electric or Gas Charges reflect the cost of energy supply.

This section appears on the bill only if the customer receives electric supply from an alternate energy supplier.

Regional Greenhouse Gas Initiative (RGGI) Surcharge recovers the costs associated with programs designed to limit greenhouse gas emissions.

SBC Charge: Societal Benefits Charge recovers the cost of mandated energy efficiency, environmental protection and low income assistance programs.

Smart Grid Surcharge recovers program costs associated with the Company's Smart Grid Pilot Project. The Department of Energy funds 50 percent of these program costs.

Transition Bond Charge is a charge to recover costs previously incurred by Rockland Electric to serve customers in a regulated environment.
