NOTICE

Pursuant to the "Open Public Meetings Act", N.J.S.A. 10:4-6 et seq., the New Jersey Board of Public Utilities ("Board") hereby gives notice of Public Hearings, being attended by the Board's Commissioners, to provide an opportunity for the public to comment regarding an update to the 2011 New Jersey Energy Master Plan (EMP).

The production and distribution of reliable, safe, clean, and sufficient energy is essential to New Jersey's economy and way of life. In 2011, pursuant to N.J.S.A. 52:27F-14, this Administration developed the EMP to assist in meeting current and future energy needs.

Individuals and other interested parties can reference the EMP, and its respective goals and recommendations at www.nj.gov/emp/. The Board will soon release information concerning updates to the EMP via the BPU website, EMP website and EMP listserv. The Administration is committed to providing information to the public and receiving input from the public during this process. To this end, the Board will hold three separate public hearings as detailed below. Additionally, the Board will release information on when and how to submit written comments when it releases the EMP update information.
