SmartStart Buildings Program

Gas Heating Application

FY20 July 1, 2019 - September 30, 2020

MEASURE DESCRIPTION

Gas Heating incentives are available for installation of high efficiency gas fired boilers, gas furnaces, low intensity infrared heaters, boiler economizing controls and domestic hot water pipe wrap insulation in commercial and industrial facilities. Both equipment replacement and new construction projects are eligible to apply. Incentive rates are pre-determined based on the size and efficiency of new equipment. Pre-approval is not required prior to installation however, applications must be submitted within 1 year of material purchase to remain eligible for the incentive.

APPLICATION INSTRUCTIONS

- 1. New to SmartStart? Download the SmartStart Program Guide for FAQs or contact us at (866) NJSMART with questions.
- 2. Pre-approval is not required for Gas Heating applications; however, applications must be submitted within 1 year of material purchase to remain eligible for the incentive. Customers may submit applications prior to installation to receive an incentive commitment letter. Applicants choosing to install prior to program pre-approval do so at their own risk.
- 3. Ensure that the facility is eligible for participation in the program by reviewing a recent gas utility bill to confirm that Societal Benefits Charges are paid to an investor-owned utility under a commercial rate code.
- 4. Review all measure requirements to confirm that equipment you are purchasing meets efficiency requirements and is eligible for an incentive.
- 5. If you need assistance with development of a scope of work or do not know what type of equipment you need, consult the <u>Trade Ally List</u> to find a contractor who can assist you.
- 6. You or your contractor must complete the Gas Heating application and the Excel incentive worksheet.
- 7. Submit the signed completed form along with all supporting documentation listed in the Application Checklist to the program for review. An electronic version of this application is available through the online application portal. Please submit the application through a <u>single method</u> (online, email, mail, or fax).
- 8. We will review the submittal for completeness and contact you and your contractor (if listed) via email to retrieve any missing information or documentation.
- 9. An approval letter will be emailed to you and your contractor (if listed) indicating the approval date and estimated incentive amount set aside for your project.

Online application portal:

Email for new application submissions only. Call (866) NJSMART with questions.

Mail:

New Jersey's Clean Energy Program c/o TRC 900 Route 9 North Suite 404 Woodbridge, NJ 07095

Fax: (732) 855-0422

FY20_GH_04

ENHANCED INCENTIVES

Measure incentive rates listed on this form are doubled for equipment installed in existing buildings that meet at least one of the eligibility criteria listed below.

All projects are subject to an incentive cap equal to the applicant's cost for the project (material and labor). Enhanced incentives do not apply to new construction projects. To qualify for an enhanced incentive, documentation, as listed in the table below, must be provided with the application package demonstrating that the entity or building location meets at least one of the eligibility categories.

Eli	gibility Basis	Criteria
>	Located in an Urban Enterprise	The building where equipment is or will be installed must be located within the bounds of an Urban Enterprise Zone (UEZ). Please follow the steps below to confirm your facility is within the qualifying zone.
	Zone (UEZ)	The building location must be checked against the NJ Community Asset Map.
		 Enter the address of your building in the field at the top of the map. Under the Layers menu on the left side of the screen, scroll down to Urban Enterprise Zones and <i>check</i> to enable the layer. Print or save a screenshot of the page to include with your submission.
		For the avoidance of doubt, companies do not need to become a Certified UEZ Business to be eligible for enhanced incentives from NJCEP.
>	Located in an Opportunity	The building where equipment is or will be installed must be located within the bounds of an Opportunity Zone (OZ). Please follow the steps below to confirm your facility is within the qualifying zone.
	Zone (OZ)	The building location must be checked against the NJ Community Asset Map.
		 Enter the address of your building in the field at the top of the map. Under the Layers menu on the left side of the screen, scroll down to Opportunity Zones and <i>check</i> to enable the layer. Print or save a screenshot of the page to include with your submission.
>	Affordable Housing	Any multifamily housing that an official document identifies as participating in a federal, state, or local affordable housing program. This includes, by way of example only, the New Jersey Department of Community Affairs listing of Affordable Housing available here https://www.state.nj.us/dca/divisions/codes/publications/developments.html as well as official documents showing identification by the documents regarding New Jersey Housing and Mortgage Finance Agency, United States Low Income Housing Tax Credit (LIHTC), and United States Housing and Urban Development (HUD).
>	Owned or operated by a Municipal Entity	The building must be owned or operated by a Municipal Entity as evidenced by the name listed on the utility bill(s) for the building. If the name as shown on the utility bill(s) does not clearly delineate a Municipal Entity, other documentation may be accepted to demonstrate ownership on a case-by-case basis. Please contact the Program Manager for specific guidance.
		The Municipal Entity name must be recognized on the New Jersey Municipalities Search tool available at: https://www.nj.gov/nj/gov/direct/municipality.html or be listed here: https://nj.gov/comptroller/news/docs/authoritiescommission.pdf .
>	Owned or operated by a County Entity	The building must be owned or operated by a County Entity as evidenced by the name listed on the utility bill(s) for the building. If the name as shown on the utility bill(s) does not clearly delineate a County Entity, other documentation may be accepted to demonstrate ownership on a case-by-case basis. Please contact the Program Manager for specific guidance.
		Enhanced incentives for Counties apply to:
		Buildings owned or operated by one of the counties listed here: https://www.state.nj.us/nj/gov/county/counties.html
		 This includes, among other things, buildings owned or operated by any "community college" listed here: https://www.nj.gov/highereducation/colleges/schools_sector.shtml And authorities and commissions listed here: https://nj.gov/comptroller/news/docs/authoritiescommission.pdf
>	Owned or operated by K-12 Public School	The building must be owned or operated by a K-12 Public School as evidenced by the name listed on the utility bill(s) for the building. If the name as shown on the utility bill(s) do not clearly delineate a K-12 Public School, other documentation may be accepted to demonstrate ownership on a case-by-case basis. Please contact the Program Manager for specific guidance.
		The K-12 Public School name must be recognized on the New Jersey School Directory available at: https://homeroom5.doe.state.nj.us/directory/pub.php

FY20_GH_04

APPLICATION CHECKLIST

	cations must be received within 1 year of material purchase. Applicants not required to receive pre-approval may use to install at their own risk.
	For projects requesting enhanced incentives: Attach documentation demonstrating eligibility as described in the Enhanced Incentives section of this application.
	Excel Gas Heating measure worksheet as provided on the NJ Clean Energy SmartStart program website.
	A recent copy of a full utility bill from a participating gas utility showing societal benefits charge and commercial billing code.
	 Name and account # of the customer listed on the application must match the name of the customer and account # listed on the utility bill. For projects where a utility account has not yet been established, the utility bill is not required with the initial application submission, however the customer will be required to submit a utility bill prior to incentive payment.
	Manufacturer's specification sheets for the equipment that you plan to install. The specification sheet should indicate model, size and efficiency of type of equipment.
	For boilers, attach one of the following documents to support the input size and efficiency of the specific equipment model number.
	o AHRI Certificate (https://www.ahridirectory.org/ahridirectory/pages/home.aspx).
	Federal Trade Commission EnergyGuide label. Applifactures officiency rating using the test procedure for the equipment listed in ASHRAE Standard.
	 Manufacturer efficiency rating using the test procedure for the equipment listed in ASHRAE Standard 90.1-2013 Table 6.8.
	For furnaces, attach a printout/screenshot of the ENERGY STAR® listing for the specific equipment model number from: https://www.energystar.gov/productfinder/product/certified-furnaces/results
APPLI	CATION PROCESS FOR PAYMENT
If your	project is already complete, please include the following additional documentation for approval and payment. Please post inspection may be required prior to incentive being processed:
If your	project is already complete, please include the following additional documentation for approval and payment. Please
If your	project is already complete, please include the following additional documentation for approval and payment. Please post inspection may be required prior to incentive being processed: Material invoice
If your note, a	 project is already complete, please include the following additional documentation for approval and payment. Please post inspection may be required prior to incentive being processed: Material invoice The invoice should include the model number of the equipment installed, quantity, and unit price. Equipment may be purchased up to one year prior to TRC's receipt of the application. Sufficient documentation must be submitted with the material invoice demonstrating the date of equipment
If your note, a	 project is already complete, please include the following additional documentation for approval and payment. Please post inspection may be required prior to incentive being processed: Material invoice The invoice should include the model number of the equipment installed, quantity, and unit price. Equipment may be purchased up to one year prior to TRC's receipt of the application. Sufficient documentation must be submitted with the material invoice demonstrating the date of equipment purchase, such as a purchase order, if it is not clear on the material invoice. Labor Invoice Labor/installation price must be listed separately from material price.

Tax Clearance Certificate obtained from NJ Division of Taxation Instructions on applying for the certificate can be found at www.njcleanenergy.com/TCC . No incentive will be paid without receipt of a valid Tax Clearance Certificate. Certificates are valid for 180 days and must be valid on the date TRC signs off on the incentive. The name of the customer and tax ID number appearing on the tax clearance must align with the customer name listed on the provided utility

FY20_GH_04 3

GAS HEATING INCENTIVE RATES AND REQUIREMENTS

Gas Fired Boilers

1. Boilers of all types with input size exceeding 4,000 MBh will be evaluated through the Custom measures path.

NON-CONDENSING BOILERS							
Non –Condensing Boiler Type	Size Category (Input MBh of boiler)	Measure Code	Efficiency Requirement	Incentive Rate			
Hot Water	< 300	GH1	85% AFUE	\$0.95/MBh; Min \$400/unit			
Hot Water	<u>></u> 300 to 1,500	GH2	85% Thermal Efficiency	\$1.75/MBh			
Hot Water	> 1,500 to 2,500	GH3	85% Thermal Efficiency	\$1.50/MBh			
Hot Water	> 2500 to 4,000	GH4	85% Combustion Efficiency	\$1.30/MBh			
Steam, all except natural draft	< 300	GH5	82% AFUE	\$1.40/MBh; Min \$400/unit			
Steam, all except natural draft	<u>></u> 300 to 1,500	GH6	81% Thermal Efficiency	\$1.20/MBh			
Steam, all except natural draft	> 1,500 to 2,500	GH7	81% Thermal Efficiency	\$1.20/MBh			
Steam, all except natural draft	> 2,500 to 4,000	GH8	81% Thermal Efficiency	\$1.00/MBh			
Steam, natural draft	< 300	GH9	82% AFUE	\$1.40/MBh; Min \$300/unit			
Steam, natural draft	<u>></u> 300 to 1,500	GH10	79% Thermal Efficiency	\$1.00/MBh			
Steam, natural draft	> 1500 to 2,500	GH11	79% Thermal Efficiency	\$0.90/MBh			
Steam, natural draft	> 2,500 to 4,000	GH12	79% Thermal Efficiency	\$0.70/MBh			

CONDENSING BOILERS							
Condensing Boiler Type	Size Category (Input MBh of boiler)	Measure Code	Efficiency Requirement	Incentive Rate			
Hot Water	< 300	GH13	93% AFUE	\$2.00/MBh; Min \$1000/unit			
Hot Water	<u>></u> 300 to 1,500	GH14	91% Thermal Efficiency	\$2.20/MBh; Min \$1000/unit			
Hot Water	> 1,500 to 2,500	GH15	91% Thermal Efficiency	\$2.20/MBh			
Hot Water	> 2500 to 4,000	GH16	93% Combustion Efficiency	\$2.00/MBh			
Hot Water	<u>></u> 300 to 1,500	GH18	88% Thermal Efficiency	\$2.00/MBh; Min \$1000/unit			
Hot Water	> 1,500 to 2,500	GH19	88% Thermal Efficiency	\$1.85/MBh			
Hot Water	> 2500 to 4,000	GH20	88% Combustion Efficiency	\$1.55/MBh			

FY20_GH_04 4

Gas Furnaces

1. Specific equipment model number must appear on the most recent Energy Star Certified Furnaces list available at https://www.energystar.gov/productfinder/product/certified-furnaces/results.

Furnace Capacity	Efficiency Requirement	Measure Code	Incentive Rate
All sizes	<u>></u> 95% AFUE	GH21	\$400 per furnace

Low Intensity Infrared Heating

1. Incentives for infrared heating equipment are for indoor installations only.

Capacity (MBh)	Measure Code	Incentive Rate
<u>≤</u> 100	GH22	\$500/unit
> 100	GH23	\$300/unit

Boiler Economizing Controls

- 1. All boiler economizing controls and infrared heaters must be listed by UL or other OSHA approved Nationally Recognized Testing Laboratory (NRTL) in accordance with applicable U.S. Standards.
- 2. Boiler economizing controls incentive available for both retrofits and new units without a current economizing control installed.

Boiler Capacity (MBh)	Measure Code	Incentive Rate
<u><</u> 800	GH24	\$1,200/control
> 800 MBh - < 1,600 MBh	GH25	\$1,500/ control
≥1,600 MBh- < 3,000 MBh	GH26	\$1,800/ control
≥3,000 MBh- <3,500 MBh	GH27	\$2,100/control
≥3,500 MBh- < 4,000 MBh	GH28	\$2,400/control
≥ 4,000 MBh	GH29	\$2,700/control

Domestic Hot Water Pipe Wrap Insulation (All Equipment Types)

1. Must provide length of pipe and pipe diameter with application.

Pipe Diameter	Measure Code	Incentive Rate
≤0.5" Diameter	GH30	\$1 per linear foot
> 0.5" Diameter	GH31	\$2 per linear foot

NJ SmartStart Buildings® Program Terms and Conditions FY2020 (July 1, 2019 – September 30, 2020)

Eligibility

- 1. This application package must be received by the Program Manager on or before September 30, 2020 in order to be eligible for the fiscal year program (July 1, 2019 September 30, 2020) incentives. All participating customers are required to submit the most current application form. All submissions will be reviewed based on the current program requirements and incentive levels approved by the Board of Public Utilities.
- Program Incentives are available to non-residential retail electric and/or gas service participating customers of New Jersey Utilities. A
 participating customer must pay Societal Benefits Charges under a New Jersey Utility account serving the fuel type (electric or gas) applicable
 to the specific Energy-Efficient Measure. Participating customers who have not contributed to the Societal Benefits Charge of
 the applicable New Jersey Utility are not eligible for incentives offered through this program. New Jersey Utilities include Atlantic City
 Electric, Jersey Central Power & Light, Rockland Electric Company, New Jersey Natural Gas, Elizabethtown Gas, PSE&G and South Jersey
 Gas.
- 3. Each utility account requires a complete, separate application. Projects for the same utility account and the same technology being done at the same time should be submitted on one application.
- 4. Requirements regarding Initial Applications and Pre-installation Approvals
 - a. All Custom applications must be approved by the Program Manager prior to installation.
 - b. Prescriptive Lighting, Performance Lighting, and Lighting Control applications seeking an incentive ≥\$100,000, including any enhanced incentive, must be approved by the Program Manager prior to installation. For any other Prescriptive applications, installation may proceed without the Program Manager's approval.
 - c. Any installation implemented without the Program Manager's approval is at the applicant's own risk.
 - d. Applications that do not require the Program Manager's approval prior to installation must be submitted within 12 months of equipment purchase. Sufficient documentation must be provided confirming the date of equipment purchase (material invoice, purchase order, etc.).
- 5. In order to be eligible for program incentives, a participating customer or an agent (contractor/vendor) authorized by a participating customer, must submit a properly completed application package that is signed by the participating customer. A complete application package should include all documentation listed in the checklist section of the application.
- 6. Applications signed by someone other than the customer require a letter of authorization.
- 7. Project invoices should list both the labor and material costs separately. The invoice should include a description of the equipment installed, quantity, and unit price.
- 8. For projects that are self-installed by the participating customer, in addition to the material invoices listing the equipment installed, quantity, and unit price, written documentation from the participating customer must be provided in lieu of a labor invoice attesting to the start and end dates of the self- installation.
- 9. Energy-Efficient Measures must be installed in buildings located within a New Jersey Utilities' service territory and designated on the participating customer's incentive application.
- 10. Program Incentives are available for qualified Energy-Efficient Measures as listed and described in the Program materials and incentive applications.
- 11. The participating customer must ultimately own the equipment through an up-front purchase. Equipment procured by participating customers through another program offered by New Jersey's Clean Energy Program or the New Jersey Utilities, as applicable, are not eligible for incentives through this program.
- 12. Incomplete application submissions, applications requiring inspections and unanticipated periods of high volume may cause processing delays.

Incentive Amounts

- 1. Program Incentives will not exceed the lesser of:
 - a. the approved Program Incentive amount, or
 - b. the total project cost of the Energy-Efficient Measure.
 - i. Project cost is the expense directly associated with the Energy Efficient Measure, excluding NJ state sales tax.
- 2. Products offered at no direct cost to the participating customer are ineligible.
- 3. Program Incentives are limited to \$500,000 per utility account in a fiscal year.
- 4. Buildings (a) owned or operated by Municipalities, Counties, K-12 Public Schools, (b) located in UEZs or OZs zones or (c) that constitute Affordable Housing may be eligible for an enhanced incentive equal to an additional 100% of the incentive values set forth in the incentive table for each technology, but subject to a cap of the applicant's cost for the project (material and labor). The foregoing does not include new construction or custom.

Inspections

The Program Manager reserves the right to conduct a pre-inspection of the facility prior to the installation of equipment for Prescriptive Lighting, Performance Lighting and Lighting Control applications with an incentive ≥\$100,000, including any enhanced incentive, and all Custom Measures applications. Pre- inspections will be performed prior to the issuance of the approval email. Work must not begin prior to formal Program Manager approval of the application.

- 1. All projects are subject to post-inspection to confirm equipment installation prior to payment.
- 2. The Program Manager reserves the right to verify sales transactions and to have reasonable access to Participating Customer's facility to inspect pre-existing product or equipment (if applicable) and the Energy-Efficient Measures installed under this Program, prior to issuing

- incentives or at a later time.
- 3. The applicant shall allow reasonable access to the property to inspect the installation and performance of the technologies and installations that are eligible for incentives under the guidelines of New Jersey's Clean Energy Program.

Tax Clearance Certificate Requirements

- 1. Participating customers must provide a Tax Clearance Form (entitled "Business Assistance or Incentive Clearance Certificate") for Board of Public Utilities use.
- 2. The name of the customer listed on the certificate must match the participating customer name listed on the utility bill and the application.
- 3. The participating customer tax ID listed on the application must agree with the tax ID listed on the Certificate.
- 4. Certificates are valid for 180 days and must be valid on the date the Program Manager signs off on the incentive.

Deficient Applications

- 1. If an application package is incomplete, information is missing or deemed insufficient, a deficiency notice will be sent to the participating customer requesting additional information via e-mail. The information or documentation requested on the email must be received by the Program Manager within 30 days of the date of the request. If additional deficiencies are still noted, there will be up to two additional notifications issued with the same time frames.
- 2. If a participating customer fails to respond to a deficiency request within 30 days or exceeds the three attempts provided, the application will be rejected. If an application is rejected, participating customers may re-apply under the program incentives and requirements in place at the time of re-application.

Expirations

- 1. Pre-approved projects are given a one-year approval in which the proposed measure is to be installed and operational. When a project has expired the participating customer will have 30 days to either submit a request for an extension OR submit final project paperwork. If no response is received within 30 days of expiration, the project will be cancelled.
- 2. Extension requests must be in writing from the participating customer and include the circumstances that led to the extension request, and the percentage of the project completed.
- 3. Extension requests may be granted for a period no longer than six (6) months. The Program Manager may provide up to two six-month extensions from the original approval expiration date.
- 4. Upon expiration, if the project has not started and the participating customer is still interested in installing the equipment, the existing application will be cancelled and a new application package must be submitted, which will be reviewed under the program incentives and requirements in place at the time of re-submittal.

Change in participating customer name/payee after pre-approval

To initiate a change to the participating customer name or payee on an approved application, the following documentation must be provided:

- 1. Documentation from the participating customer authorizing the change and a new, fully signed application reflecting the updated participating customer or payee name.
- 2. For name change of the applicant/customer, a utility bill in the name of the new participating customer is required.

All such changes requests are subject to Program Manager approval. Certain requests may require additional information to be submitted as defined by the Program Manager.

Tax Liability

The Program Manager will not be responsible for any tax liability that may be imposed on any participating customer as a result of the payment of Program Incentives. All Participating Customers must supply their federal tax identification number or social security number to the Program Manager on the application form in order to receive a Program Incentive.

Prevailing Wage

Participating projects with a contract at or above current prevailing wage contract threshold amount set pursuant to the New Jersey Prevailing Wage Act (N.J.S.A. 34:11-56.25 et seq.) are required to pay no less than prevailing wage rate to workers employed in the performance of any construction undertaken in connection with Board of Public Utilities financial assistance, or undertaken to fulfill any condition of receiving Board of Public Utilities financial assistance, including the performance of any contract to construct, renovate or otherwise prepare a facility, the operations of which are necessary for the receipt of Board of Public Utilities financial assistance. By submitting an application, or accepting program incentives, applicant agrees to adhere to New Jersey Prevailing Wage requirements, as applicable. By signing the application, the signatories agree to comply with the provisions of the New Jersey Prevailing Wage Act, N.J.S.A. 34: 11-56.25 et seq., (Act), if and to the extent that Act may apply to the work covered by the application. More information can be found at https://www.nj.gov/labor/wagehour/regperm/public contracts general.html

Endorsement

The Program Manager and Administrator do not endorse, support or recommend any particular manufacturer, product or system design in promoting this Program.

Warranties

THE PROGRAM MANAGER AND ADMINISTRATOR DO NOT WARRANT THE PERFORMANCE OF INSTALLED EQUIPMENT, AND/OR SERVICES RENDERED AS PART OF THIS PROGRAM, EITHER EXPRESSLY OR IMPLICITLY. NO WARRANTIES OR REPRESENTATIONS OF ANY KIND, WHETHER STATUTORY, EXPRESSED, OR IMPLIED, INCLUDING, WITHOUT LIMITATIONS, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING EQUIPMENT OR SERVICES PROVIDED BY A MANUFACTURER OR VENDOR. CONTACT YOUR VENDOR/SERVICES PROVIDER FOR DETAILS REGARDING PERFORMANCE AND WARRANTIES.

Limitation of Liability

By virtue of participating in this Program, Participating Customers agree to waive any and all claims or damages against the Program Manager or the Administrator, except the receipt of the Program Incentive. Participating Customers agree that the Program Manager's and Administrator's liability, in connection with this Program, is limited to paying the Program Incentive specified. Under no circumstances shall the Program Manager, its representatives, or subcontractors, or the Administrator, be liable for any lost profits, special, punitive, consequential or incidental damages or for any other damages or claims connected with or resulting from participation in this Program. Further, any liability attributed to the Program Manager under this Program shall be individual, and not joint and/or several.

Termination

The New Jersey Board of Public Utilities reserves the right to extend, modify (this includes modification of Program Incentive levels) or terminate this Program without prior or further notice.

Participating Customer's Certification

Participating Customer certifies that he/she purchased and installed the equipment listed in their application at their defined New Jersey location. Participating Customer agrees that all information is true and that he/she has conformed to all of the Program and equipment requirements listed in the application.

Acknowledgement

The applicant gives the Program Manager permission to share records with the New Jersey Board of Public Utilities, and contractors it selects to manage, coordinate or evaluate the New Jersey SmartStart Buildings Program including the release of electric and natural gas utility billing information, as well as make available to the public any and all information required by the Open Public Records Act and/or other applicable laws.

Enhanced Incentive

Details listed in the Enhanced Incentive section of each application.
