

## Proposed Solar Stakeholder Schedule

The Summit Blue Report, “Analysis of Rate Payer Impacts of Alternatives for Transitioning the NJ Solar Market from Rebates to Market Based Incentives,” provides an analysis of the potential impact on rate payers of transitioning from rebates to market based incentives based on the various models proposed by the REC work group. This report does not, as of yet, provide recommendations on the ACP and SACP levels for 2009 and 2010 or longer, or for the Solar REC-only Pilot. We are revising the stakeholder process and Hearing schedule to address this additional information, as follows:

<b>Date</b>	<b>Action Item</b>
April 25, 2007	Final Draft of the Summit Blue Report – “Analysis of Rate Payer Impacts of Alternatives for Transitioning the NJ Solar Market from Rebates to Market Based Incentives” – posted on the BPU and CEP website. Comment period on the draft open through June 22, 2007.
May 9, 2007	Public stakeholder meeting on the Summit Blue Report, “Analysis of Rate Payer Impacts of Alternatives for Transitioning the NJ Solar Market from Rebates to Market Based Incentives,” in Newark. Summit Blue will do a presentation on the report, and they and OCE staff will be available to answer questions and address comments. This meeting will provide opportunity for stakeholder discussion of the report and the overall process. The Summit Blue presentation will be posted on the BPU and CEP website. Comments on the presentation and the discussion may be submitted through June 22, 2007. This meeting will be chaired by Lance Miller.
May 23, 2007	OCE will post a Staff Straw Proposal on the BPU and CEP websites of recommendations for establishing an appropriate multi-year schedule that will develop a set of transition strategies while achieving the RPS targets and minimizing ratepayer impacts. This Proposal will be developed by OCE and Summit Blue based on comments received through the stakeholder process and the Summit Blue Report and will include any potential revisions to the current Solar REC-only Pilot. Comments on the proposal may be submitted through June 22, 2007.
June 6 & 7, 2007	Hearings held in Newark on June 6 <sup>th</sup> at the Board Hearing Room 1PM to 4PM and Trenton on June 7 <sup>th</sup> at the NJDEP Public

	Hearing Room 1 PM to 4 PM chaired by Commissioner Fiordaliso regarding the January 19, 2007 Order Docket No. EO06100744 IMO RPS – Recommendations for ACP and SACP for Energy Year 2008 and ACP and SACP levels for Energy Year 2009 and 2010 or longer, and the Solar REC-only Pilot;
June 22, 2007	Comment period closes.
August 1, 2007	Board staff will present policy recommendations for the Board to consider at its August 1 <sup>st</sup> Board meeting.

Note

Comments may be submitted on:

- 1) The policy questions set forth in the January 19, 2007 Order Docket No. EO06100744 IMO RPS – Recommendations for ACP and SACP for Energy Year 2008: and ACP and SACP levels for Energy Year 2009 and 2010 or longer, and the Solar REC-only Pilot;
- 2) The stakeholder process regarding ACP and SACP levels for Energy Year 2009 and 2010 or longer, and the Solar REC-only Pilot;
- 3) The Summit Blue Report, “Analysis of Rate Payer Impacts of Alternatives for Transitioning the NJ Solar Market from Rebates to Market Based Incentives”;
- 4) Summit Blue’s presentation and discussion of this report;
- 5) The Staff Straw Proposal on recommendations for establishing an appropriate multi-year schedule that will develop a set of transition strategies while achieving the RPS targets and minimizing ratepayer impacts and any potential revisions to the current Solar REC-only Pilot; and
- 6) Any issue related to the stakeholder process for the above noted Board docket matter may be submitted to and viewed on the BPU and CEP website.
