

Solar Act Subsection t Application Form

Application Form: Requirements, Instructions, Terms and Conditions

*The following application is intended only for entities associated with the development of solar electric power generation facilities that seek certification from the Board of Public Utilities ("Board") as being located on a brownfield, an area of historic fill, or a properly closed sanitary landfill facility pursuant to N.J.S.A. 48:3-87(t)(1) ("Subsection t"). Projects certified under Subsection t shall be considered "connected to the distribution system" for purposes of Solar Renewable Energy Certificate ("SREC") eligibility, shall not require such designation by the Board and shall not be subject to Board review pursuant to Subsections q and r of N.J.S.A. 48:3-87. **Before completing the attached Subsection t application, please carefully read all of the information below and in sections I, II and III.***

Before submitting an application, it is recommended the applicant schedule a meeting with the New Jersey Department of Environmental Protection's Office of Permit Coordination and Environmental Review to determine what permits may be required and to identify other potential issues. <http://www.nj.gov/dep/pcer/>.

Additionally, the applicant should review the compliance history at the proposed site and the various operations that were conducted there. Satisfaction of all outstanding NJDEP regulatory compliance obligations is required prior to obtaining final certification. The Applicant should identify if there are any outstanding compliance and enforcement issues associated with the property on which the proposed project is to be sited, and resolve accordingly, before submitting the Post Construction NJDEP Compliance Form.

I. Minimum Qualification Requirements

1. Only those applications for projects proposed to be located on sites meeting the definition of a brownfield, an area of historic fill, or a properly closed sanitary landfill facility, pursuant to N.J.S.A. 48:3-51, and which meet all the statutory requirements under Subsection t, will be considered as "connected to the distribution system" for purposes of SREC eligibility, pursuant to Subsection t. Projects that are proposed to be located on land that has been actively devoted to agricultural or horticultural use that is valued, assessed, and taxed pursuant to the "Farmland Assessment Act of 1964," P.L. 1964, c.48 (C.54:4-23.1 *et seq.*) at any time within the ten (10) year period prior to July 24, 2012 will not be eligible for designation as being located on a brownfield, an area of historic fill, or a properly closed sanitary landfill facility for purposes of qualifying for SRECs under Subsection t.

II. Instructions for Completing the Subsection t Application Form

1. Each solar electric power generation facility seeking certification under Subsection t requires the submission of an individual application form. Do not apply for more than one (1) solar facility project per application form. However, if certification of a single facility under more than one (1) of the three (3) designations specified in Subsection t(1) is sought - for example, certification of a project as being located in part on a landfill and in part on a brownfield is sought for one facility, - a separate application is not required for each type of certification. The applicant shall specify which portions of the site qualify for which designation. The applicant cannot state that a given portion of the site qualifies for more than one designation (for example, if certification of a given block and lot is sought as a brownfield, the same application cannot seek certification for that same block and lot as an area of historic fill).
2. Complete sections A through G contained in this application, and affix the attachments required in the questions contained in section G below.
3. Original signatures on all forms and the certification contained in section H of this application are required. The certification contained in section H must also be notarized.

III. Important Terms and Conditions

1. The "applicant" is defined as the entity that submits the Subsection t application form (i.e., an applicant may be a project developer, property owner, contractor, installer, land speculator, or agent of any thereof).

Solar Act Subsection t Application Form

2. The applicant, by executing the application and certification, acknowledges on behalf of all project participants, that full certification pursuant to Subsection t is a condition of SREC eligibility, but it does not obviate the need for compliance with the SREC Registration Program (“SRP”) requirements, and meeting all relevant local, state and federal laws. In review of an application, the Board may attach specific conditions, including, but not limited to, setting the effective date of the project’s qualification life.
3. The applicant may be required to supplement the initial information provided during the application process.
4. Board staff, in consultation with New Jersey Department of Environmental Protection (“NJDEP”) staff, will review each application.
5. By submitting an application, the applicant acknowledges notice on behalf of all project participants that the information included in the application is subject to disclosure under the Open Public Records Act, N.J.S.A. 47:1A-1 et seq. Aggregated information will be used by the Board and/or other state, federal, county, regional or local agencies in reports and evaluations, and the geographic location may be used to update Geographic Information System mapping. Applications will be reviewed and decisions on applications will be made by the Board, in consultation with NJDEP.
6. Amendments or supplements to the Subsection t application will be provided via the Board website at www.nj.gov/bpu and NJCEP website at <http://www.njcleanenergy.com/>. This application form may be modified at any time without prior notification.
7. Projects certified under the Subsection t application process must also comply with all appropriate provisions of the Renewable Portfolio Standards rules such as the SRP, N.J.A.C. 14:8-2.4, including submission of an SREC Registration Program registration within fourteen (14) days of an Order granting conditional certification, and compliance with all applicable local, state, and federal laws, permit requirements and regulations.

Applications submitted via facsimile or electronic mail will not be accepted. Mail or hand-deliver eight (8) complete application packages to:
